EDITORIAL.

WE'RE back again and very pleased about it with the hope that our Year Book's "new look," though modest in its application, will still find the same welcome given to its predecessors.

May we say, too, that with an ever-increasing membership and a steadily mounting bank balance, we have said goodbye to austerity and welcome a new era of activities which increase in variety and attraction every month.

It has been difficult to solve the problem of condensing so much accumulated news into a book which, despite its increase in space, is still inadequate for all our needs. Our apologies to those whose contributions may have been omitted or ruthlessly cut.

One thing we will not omit. Elsewhere in our issue there appears a tribute to Mr. H. Nicholson. To it we add well-deserved bouquets for Mr. T. B. Brooke, Mr. E. Baldwin and our president, Mr. J. Wilkinson. On the untiring, behind-the-scenes efforts of these—and others—rests the undoubted success of the Old Stocktonians.

We now believe we have something to please everybody—dances, smokers, rugby, cricket, badminton, and even socials with the Old Girls—if there's still something lacking we welcome suggestions.

It is fitting that as we go to press we should receive a happy message of greeting for this fresh chapter in our history from Ted Scholes, our first Old Boy President, now a Lancastrian.

To any who may have allowed their subscriptions to lapse, please hand your florins to any members of the committee or send it along to the school.

OLD BOY PRESIDENT.

The Association was fortunate in persuading Mr. John Wilkinson to continue as President in this, the first year of "normal" working after the war.

From 1937 to 39 he presided over our fortunes with distinction, resuming very active work in September, 1946, when the first attempt was made at post-war restoration. Since then he has been indefatigable on our behalf—a real, working president, who has entered wholeheartedly with the rest of the committee in the inevitable rough and tumble consequent on the period 1939-46.

He has never been satisfied to allow attendance at committees, however effective his chairmanship, to serve as the limit of what he can do as an Old Stocktonian, this in spite of the pressure of his professional work which often involved his travelling miles from Stockton.

His example has been an inspiration to the rest of us. The Annual General Meeting showed its acumen in insisting by unanimous consent that he should continue, and Mr. Wilkinson his generosity, in acceding to their request.

A Message from our First President.

I have been asked to contribute a few lines to your Year Book, the first issue since 1938, I understand.

So many of you, indeed the majority of you, I have never had the privilege of knowing, and to you my name will convey nothing at all. But there are exceptions.

Thirty-five years ago, way back in 1913, a band of enthusiasts gathered together and decided to form a society of Old Boys of the then Higher Grade School, and to call such society the "Old Stocktonians."

I was one of them and, somewhat wistfully, one recalls those early days wondering in what far-flung corners of the earth some of those enthusiasts may still abide, and wondering, also, how many of them have passed beyond our knowing.

To me was accorded the high privilege of being your first President and thirty-five years have not blotted out that memorable occasion.

It is an astonishing fact that in spite of the major upheavals which have occurred in that long period of time, the Old Stocktonians have, in spite of all, been able to survive, and with re-awakening energy look to a future wherein the will to keep alive the traditions of the past shall not fail.

It is on record that the older one grows the more vivid and outstanding become the memories of one's youth.

In the quiet peace of the countryside in which I now live, and in the time of day when the shadows of the evening welcome one to an armchair by the fireside, the memories of those far-off pioneer days become very real, and we recall that not a few of us became aware that in the service of one's fellows therein abounds the true art of living, so ably expressed in these lines, which some of you may know:

Isn't it strange that Princes and Kings
And clowns that caper in sawdust rings,
And common folk, like you and me,
Are builders for eternity?

To each is given a bag of tools,
A shapeless mass and a book of rules,
And each must make, ere life is done,
A stumbling block, or a stepping stone.

For the old school, for all it has taught in the joy of service, for the companionship of youth and the hope of the morrow, let the Old Stocktonians bear witness to their faith in the past, and their high endeavour to make life worth-while for all with whom they meet in the days that are to be.

EDMUND SCHOLES.

What—No "Stag" Party!

For the first time in its long and distinguished history the Old Stocktonians' Association departed from the "Stag" tradition when it joined forces—temporarily at least—with the Old Girls' Association in a social evening on March 16th of this year.

Needless to say, our younger members turned up in the Girls' Assembly Hall in force for the occasion, but there was a goodly gathering of the not-so-young fraternity. Together we numbered nearly 200.

We had "puzzle corners," dancing and refreshments and the Old Girls made the most charming and pleasant of hostesses..

Now that we co-operate both on the games side and the social side with the Old Girls' Association, we are looking forward to many more pleasant evenings.

It's that Old School tie again.

Very soon we hope to give you news of an Old Stocktonians' tie. Steps are being taken to find out the supply position and arrange for their sale locally. Any suggestions?

It was a grand night!

Nearly 100 members turned up at the Old Stocktonians' "Smoker" held on the Co-op. Cafe, Wellington Street, on February 27th.

Dr. J. R. Kinnes, Mr. E. Baldwin, Mr. W. Baker and Mr. H. Nicholson attended, as well as several members of the present school staff. We were delighted to have with us also Mr. Plowman, of Ontario, Canada. Mr. Plowman, an old boy, was on holiday over here and thoroughly enjoyed his evening out.

Mr. "Ossy" Gray entertained with songs, accompanied by Mr. T. B. Brooke at the piano, while Mr. J. Butler gave us a piano solo.

Perhaps it is unnecessary to state that our M.C. was Mr. Albert Walker. Mr. Walker led the community singing, but his *piece de resistance* was his lively conducting of the now famous "Blackbirds."

All this, and supper too, for 2s. a head. No wonder we have been pressed for more "smokers"—requests which will certainly be granted.

Letters to the Editor.

The Editor,
"The Stocktonian,"
Nelson Terrace,
Stockton-on-Tees.

Dear Sir,

Having always been afflicted with †"cacoethes scribendi" I gladly accepted your invitation to contribute an article to the "Stocktonian," though my mind then, as now, was †"tabula rasa."

Later, however, as is my unfortunate wont, I began to think. The more I thought, the more I cursed my rashness.

I thought of the people who would read my poor little article: snooty sixth formers, burdened with the wisdom of the ages; Mr. Brookes, who would scan it with merciless eye for errors of grammar and usage; Mr. Munday, who would expect a liberal larding of learned Latin tags (see above) to justify a classical education.

Seeking a suitable and topical subject for my article, I visited the school. Have you noticed how much smaller the lads are than in our day? Why, when I was in the third form I swear that sixth-formers had moustaches—well, almost!

I sought out the Head. He was perfectly charming, of course, but for an awful moment as I knocked at that fateful door memory flooded back and my stature shrunk.

I had an uneasy feeling that, as in days gone by, I was there †"a posteriori" to receive †"argumentum ad hominem." These are a couple of howlers I have thought out all by myself.

Frankly, my visit to the school filled me with vague discomfort. I can never get used to the idea that the old school has carried on in much the same way without me for the last fourteen years.

I wonder if this is a feeling peculiar to myself, for which Freud would have some perfectly revolting explanation, or whether it is the common experience of old boys?

It was somehow a shock to find Mr. Bremner still instilling the rudiments of heat, light and sound into reluctant heads; Mr. Armstrong still comparing the foreign policies of Castlereagh and Canning; Mr. Brookes still making rude remarks in red ink on sixth form essays.

My visit, I regret to say, produced no literary inspiration. I must therefore ask you to release me from my promise to contribute a few lines of deathless prose in your magazine.

Yours, etc.,

T.C.C.

GLOSSARY (vide some old Latin phrase book or other!):

Cacoeethes scribendi—an itch for writing.

Tabula rasa—a complete blank.

A posteriori—from a "a posterior" reason.

Argumentum ad hominem—an "argument" applied to the "person."

School Music—A Revival.

Musical activity revived with the weekly meetings now held at 4 p.m. on Fridays. These are now attended by pupils from the Girls' School and the Grammar School, a heartening innovation.

Of our friends of days gone by, Messrs. L. Knox and R. Robinson alone remain, but they are still very willing to help us, together with Miss Jean Povey and Messrs. J. Archer, A. Melia, G. Goodyear and J. Cooper.

To them are due two series of interesting programmes for which we are very grateful. We are fortunate, too, in having a number of instrumentalists on the staff whose help has been generous and of great value.

The first steps towards reconstituting the school orchestra have been taken, but with painfully limited resources in numbers. The war has delivered a devastating blow at amateur music. Where we could once find six boys with some skill on a stringed instrument, we now have only one. One House Festival has been held to date.

Old Stocktonians' Benevolent Fund

During the past few years the calls on the above Fund have been very infrequent. But there is no doubt at all that since its inception it has fulfilled a very useful purpose and many Old Boys have not been slow to express in practical fashion their appreciation and gratitude for the timely assistance it has been able to afford them.

The Fund was instituted in 1926 and from that date up to Dec. 31st, 1947, its financial transactions have been as follows:—

RECEIPTS				PAYMENTS			
	£	s.	d.		£	s.	d.
Donations	141	1	7	Grants non-repay- able	37	6	9
Grants from General Fund	46	16	0	Repayments of loans to Old Boys ...	30	0	0
Balance from Child- ren's Treats ...	57	13	2	Loans to Old Boys	681	18	0
Special Efforts ...	139	2	4	Bank Charges, etc.	2	18	6
Loans from Old Boys	30	0	0				
Repayment of Loans	681	18	0	BALANCE AT BANK	377	18	9
Bank Interest ...	33	10	11				
	<u>£1130</u>	<u>2</u>	<u>0</u>		<u>£1130</u>	<u>2</u>	<u>0</u>

Thus, with a substantial balance in hand and with all its loans repaid, the Fund is in a very flourishing position and is now ready to continue its beneficent and unobtrusive work.

E.B.

Old Boys showed them how.

The Old Boys' Cricket Match was revived in July, 1947, at Thornaby Cricket Ground. As perhaps should be the case, the Old Boys' team ranged from earliest to latest, from W. A. Gilbert (left 1907) to J. R. Thomas (left 1946). In between were T. D. Oliver (left 1930), E. Reed (1923), W. Marley (1925), M. Sutherland (1933), A. Porter (1938), W. H. Coates (1932), B. Gooderick (1940), J. L. Bowron (1942), R. Hazelton (1945), L. Parkin (1945).

They managed to beat the School by 127 for 8 against 71, but the Captain and the Vice-Captain gave them some hints on how to deal with slow bowling. A very large proportion of the School was there and seemed to enjoy themselves, much of "the gallery" seeing the game right through to its conclusion at 5-30 p.m.

The first Rugby match of the Old Boys against the School took place on New Year's Day, 1948. Rain came on with the start of the match and left off as the game finished. Except for this it was a very enjoyable game and the draw of 3-3 was a fair result. The Old Boys' team was composed of those who had left recently: C. Allinson, G. Horner, A. Thompson, K. Boothman, S. Thomas, H. Robinson, H. Rhodes, R. W. Davies, L. Horner, W. J. Davies, D. Sizer, M. Sizer, E. Timothy, P. Evans and A. Geipel.

Do you want a Game?

It might be possible to arrange cricket and rugby fixtures for Old Stocktonians' teams with old boys of other local schools. Those who are interested should get in touch with Mr. Sizer (for rugby) or Mr. Baldwin (for cricket).

In spite of fears to the contrary, all players turned out. The School played their most determined and lively game of the season, the forwards showing particularly well in the second half against a heavier pack.

These games suggest others. It is good for the School to play its Old Boys, both as a spur to the young players and for the generations to get to know each other, but it is surely equally right for the Old Boys to celebrate the fact that the draughty building in Nelson Terrace and the somewhat "blasted heath" on Bishopton Road are in their "calf-country," by playing against Old Boys of local schools or other adult teams.

Is it not possible that at least four matches could be arranged without interfering with club fixtures?

The cricket side might revive pleasant memories with Grammar Old Boys of Stockton, as well as the Middlesbrough schools. Both sections could arrange fixtures with the Stockton clubs.

Speech Days.

The first Speech Day to take place since the end of 1938 was held on the 14th December, 1944, not as usual in the Jubilee Hall, but in the Palais de Danse, which was generously lent to us, free of charge, by its proprietor, Mr. T. Malcolm. The speaker was Mr. J. H. Thompson, then editor of the "Evening Gazette," and the late Alderman Newton presided.

On the 7th December of the following year Speech Day was again held in the Palais de Danse, use of which was again kindly given to us, when one of the best and raciest addresses we have ever had was given by Sir William Y. Darling, C.B.E., M.C., D.L., J.P., LL.D., M.P., the late Ald. Newton being Chairman.

On December 19th, 1946, Speech Day saw us once again in our ancient habitat, the Jubilee Hall. Ald J. Alderson, J.P., who had been appointed Chairman of the Governors in succession to Ald. Newton, took the Chair. Mr. G. R. Chetwynd, M.P., presented the prizes and certificates.

In 1947 the function was again held in the Jubilee Hall, on the 4th December, when Alderman Alderson presided. Mr. S. G. Raybould, B.Sc. (Econ.), Director of the Department of Extra-Mural Studies, Leeds University, gave an interesting talk.

It is regretted that the chronicler cannot now, as he could prior to 1939, make any mention of a school orchestra. This is not, indeed, because efforts have not been made to revive it; it seems, however, extraordinarily difficult to have it re-started. Why is it that nearly all who wish to learn to play some musical instrument insist on the piano?

Dare one venture to express the hope that perhaps next Speech Day will see, at least, the nucleus of a school orchestra?

C. W. King Memorial Fund.

Although difficulties are being experienced in our efforts to get a photograph of suitable size, these are being overcome.

The question of providing a frame is a much simpler proposition once the photograph is ready.

The Fund now stands at £78 4s. 6d.

He is our "Mr. Chips."

In September, 1905, a young graduate of Armstrong College, Newcastle-upon-Tyne, and Pemberton Scholar of the University of Durham, joined the staff of what was then the Higher Grade School.

A year later the school became the Secondary School and Mr. Henry Nicholson remained to become, in course of time, the last of that earnest band to whose patient and enduring enthusiasm are due the success and fame which has not always been very readily won by schools whose original foundation looks no further back than the nineties.

Mr. Nicholson's first duties were as one of the mathematical staff, and those Stocktonians were fortunate indeed who had the privilege of enjoying his gifted and inspiring teaching in the days when mathematical instruction ranked as the most important in the curriculum, and the standards of public examination were higher and more exacting than they are now.

Mathematics were not sufficient to absorb all Mr. Nicholson's energies. The social and out-of-school side then was as important as it is now, with the distinction that it was not so easy to discharge.

Mr. Nicholson had been a soccer man at college, and to soccer at school he gave valued help.

More important, perhaps, was his contribution to the dramatic activities, and, most important of all, the more easy-going histrionics which contributed so much to the liveliness of the "socials" of those never-to-be-forgotten days.

World War I. claimed his services in the heavy artillery, and those hectic days over, he returned to more strenuous days in the old school.

On Mr. Taylor's retirement in 1925, he became Senior Chemistry Master and had the satisfaction of sending to the universities a steady stream of pupils to win distinction for themselves, their old teacher and the school in the domain of chemistry.

More than a few of Mr. Nicholson's old pupils are now doing important work for their country in these anxious days, mostly in industrial chemistry, but more than one on atomic research. During the recent war Mr. Nicholson succeeded Mr. Baker as Deputy Headmaster.

For thirty-five years he has been officially connected with the Old Stocktonians, and no one can really remember when he assumed the duties of treasurer.

The important thing is that he still holds this key office, and Old Boys are most unwilling to entertain the thought that he should ever quit it.

Mr. Nicholson retired last Easter (1947) after nearly 42 years of faithful and devoted service to the school—a record never before achieved, and one never likely to be challenged. We are glad to note that retirement seems to agree with both Mrs. Nicholson and our old master.

They both are certainly looking younger. We hope that before them lie many, many years of happiness, and ere long to be able to meet them on sunny sports days, once again, though perhaps not quite exactly as in the past when Mrs. Nicholson presided so graciously over the good things we called the "refreshment side"—a flourishing business which for years was her own particular domain and which absorbed her energies from early morn to very late in the evening of those happy days.

The School Welcomes . . .

Since the war, three new masters have joined the school staff. In September, 1946, Mr. D. B. Wright was added to the English department, of which Mr. Brooke became head, following upon the death of Mr. King.

Mr. Wright is a local man, born in Middlesbrough and educated at the High School. Leaving in 1932, he graduated with honours in English at Birmingham University and finished his training in 1936. After experience in several schools in Middlesbrough, he joined the R.A.F., serving in the wireless maintenance branch.

He was appointed to our school at the end of the war and soon proved himself a popular and versatile member of the staff. Apart from his special subject of literature, he is very interested in music, so that his services are very advantageously employed in that connection, not only by lecturing to the senior forms in musical appreciation, but also by playing the recorder in the school orchestra so ably that he can make that instrument sound exactly like a flute. He is also keen on out-of-school activities and plays a prominent part in the school sports and athletics. Mr. Wright is, moreover, of great assistance in dramatic work and does yeoman service in rehearsing and producing plays. In addition to all that, he is always willing to organise school journeys and is an experienced camper and "hostelier."

When Mr. Nicholson retired at Easter, 1947, it was obviously no easy matter to find a worthy successor. We congratulate ourselves, therefore, in having as Senior Chemistry Master, Mr. Arthur Atkinson. After attending the Grammar School at Bishop Auckland, Mr. Atkinson graduated at Manchester University with first class honours in Chemistry, and finished his professional training in 1937. His first post was at Heversham Grammar School, and he was later appointed Senior Chemistry Master at Wolverhampton Grammar School, whence he came to us in April, 1947.

Besides being a specialist in Chemistry, Mr. Atkinson is deeply interested in political economy, as is shown by the fact that he took an external honours degree in that subject at London University. He is also a far-travelled man, his war service in the R.A.F. being largely spent in India.

The latest arrival to the staff is Mr. H. N. Almond, whom we were particularly glad to welcome as the school had perforce been without an Art Master during the period between the end of July, when Mr. Hart was transferred to Bristol, and the beginning of January, 1947. Mr. Almond, like his colleague, Mr. Atkinson, was educated at Bishop Auckland Grammar School, but his pronounced artistic interests led him to the Art School of King's College, Newcastle. Here he graduated B.A. with honours in Fine Art, and is among the first holders of what is a comparatively new degree.

Mr. Almond specialises in landscape and portrait painting and is also gifted musically, not only being a pianist, but playing the clarinet and oboe as well; his help in the school orchestra will be as obvious as it will be invaluable.

During the war, Mr. Almond had not too pleasant a period of three and a half years with the Royal Navy, engaged in unending convoy work in the North Atlantic.

School Social Activities.

The exodus to Ragworth Hall and the black-out during the war led to a suspension of debates and, indeed, it has been difficult to revive the old enthusiasm. Debates have been held with the Grammar School. A "Quiz" was a great success and on at least one occasion an interesting Brains Trust was organised with the co-operation of the staff.

In this sort of activity, the main interest seems to have shifted to a Sixth Form Society. This owes its inception to Ernest Sockett and invitations are issued to Stockton Secondary Girls, to Queen Victoria High School and the Grammar School.

A very old boy, Mr. W. J. Wardell, of Stockton Forge, described his experiences in Siberia and on two occasions Mr. Richardson has described his life in the navy. Of the staff, Messrs. Mann, Rattenbury and Stone have described their army experiences, and when he was home on leave, E. T. Shields described life in an Indian village. Miss Milburn has lectured about New Zealand and Dr. Ian Richmond, of King's College, Newcastle, honoured the school with a lantern lecture about the Roman Wall.

Another innovation was a party and dance which was arranged with the help of Miss Milburn and Miss Jarvis. At the end of the summer term of 1947 there was also a mixed tennis match followed by a dance.

Finally, the Sixth Form has been able, with help from Miss Milburn and Miss Baillie, to form a Badminton Club.

School Journeys.

It was not possible to arrange school journeys during the war, though one successful picnic was held at Swainby. The first of the new series of school journeys took place in 1945, when a party visited Mount Grace Priory and Osmotherley. In 1946, two bus loads went to Allendale, the Roman Wall and Corstopitum; unfortunately the day was wet, but failed to dampen the spirits of the party. In 1947 a similar party visited Richmond and Easby Abbey and Church, this time in the good weather.

School presents Julius Cæsar.

Three performances of scenes from the first three acts of Shakespeare's "Julius Cæsar" were given to appreciative audience of the boys' and girls' schools on December 16th, 17th and 19th, 1947.

Those taking part were: C. D. Grant, G. Jewitt, D. McEwan, G. Riddle, A. Low, G. Scott, A. McLellan, K. Pearson, B. Laing, T. Clayton, R. Foulger, A. Hislop, B. Bowers, J. Carter, P. Hoggett, A. Osmond, D. Glenwright, A. Chilton, G. Firman, R. Armstrong, A. Husband, N. Wilkinson, J. Smith, R. Evans.

A good general standard was reached. In the leading parts, Scott made a sincere and thoughtful Brutus, Pearson an eloquent and forceful Antony, McEwen a dictatorial Caesar, and McLellan a determined Cassius. Many of the smaller parts were very well done. Special mention must be made of the Citizens and Commoners, who, by their keenness and hard work, made the crowd scenes really come to life. Costumes were effectively improvised by the cast themselves, and special thanks are due to parents who risked sheets, blankets and garments in a good cause.

There is considerable enthusiasm for acting in the school at the present time and it is hoped to present further plays of this kind.

School Sports and Pastimes—1939-1947.

ATHLETIC SPORTS.

There has been no revival of the Inter-School Sports, but our own have been held annually. It is only possible to show the winners of Senior events, but Middle and Junior school events have continued. In 1940 Peacock lowered the 80 yards Junior record to 10.1 secs., and Hindmarsh raised the Middle Long Jump to 18 ft. 2½ ins. Through 1944, 1945 and 1947 the time for the Junior 220 yards fell to 31.2 secs. (Brownlee). J. O. Tarren carried all the Middle events of 1947, a feature of very rare occurrence, but he broke no record, though he equalled that of the 75 yards hurdles—11.8 secs.

Senior events have produced one fresh record—½ mile, 1941—by P. Belshaw, and there have been other good attempts.

SWIMMING SPORTS.

These were revived in 1946 at Billingham Baths. No very remarkable talent was revealed in the Sixth, but some of the Fifth swam well and, in the Juniors, F. W. Husband lowered the record for the length under 14.

In 1947 no records were broken and entries were even more scanty. A curious fate was that of F. W. Husband, who was first in the 3 lengths, in the under 15, in the Junior length and second in the Neat Dive, and who yet was beaten in both Junior and Senior Championships.

CROSS COUNTRY.

The School Cross Country Run was revived in 1944 over a new course and won by S. S. Bedlington and his House (Green). Next year it was won individually by J. G. Henderson and, as a team, by Green. In the following year D. Bedford beat Henderson's time and Blue won the team race. A. Todd in 1947 lowered the record by a few seconds to 18 mins. 4½ secs, and his House (Brown) was first house. This new course has rather too much road in it, but it is over 3½ miles, so the times are a good average for a start.

The Inter-School Cross Country was revived on March 10th of this year.

A. W. Welch Chess Shield.

The above contest was revived in October, 1946, and after an interesting series of games W. Pallister and J. Hind emerged as finalists. Greater experience gave victory to the former in a well-fought final.

In 1947 chess became increasingly popular throughout the school and in November as many as 14 boys entered for the trophy. The first round produced a surprise in the victory of C. Beadle, a comparative newcomer to the game, over J. Hind, finalist in 1946. Beadle reached the final by developing a somewhat unorthodox style, which upset his opponents, K. Jeffs and J. Pickles. In the final he met M. A. Welsh, who had easily defeated D. Henderson, P. Whitton and G. Broadbent.

Welsh, however, in a comparatively short game demonstrated how intelligent orthodoxy can be made to pay. The other competitors were C. Waterman, P. Robinson, D. Allard, J. Short, D. Wilson and O. Walker.

Rugby.

The records of the earlier war-years have not been preserved, but they show a fairly steady decline from the records set immediately pre-war, until by 1943-44 we were back in the position where we could not win a match. There were good players in all the teams, as the members of various local sides show, and the doughty jousting of C. Johnson with various opponents became almost a legend. By the end of 1946 we seemed to be on the way to better things, for the first XV. were holding their own and the second XV. had won three, lost one, while the Junior sides were quite promising, when the snow and frost came.

This year, therefore, we started again. Only the "under 14" team, with the enthusiasm of Mr. Wright and his patient coaching to held them, can be said to have done the school much credit.

D. Berry played full back for the County against Cumberland. We are now running five teams and there are many promising players among them, so eventually we may hope to recover.

Captains: 1940, D. Moore; 1941, B. Nicholson; 1942, D. W. Atkinson; 1943, R. Atkinson; 1944, G. Moss; 1945, K. Boothman; 1946, A. Todd; 1947, L. Thornton (year given is that of the second half).

Cricket.

Our Cricket, too, has fallen in its accomplishments since 1938-9, though several individual performances are of note. In 1940 Sanderson took 32 wickets in only 7 games at an average of 4.6 per wicket. 1942 was undoubtedly Glendenning's year, for he scored 182 runs (aver. 26), with 62 against Great Ayton and took 17 wickets (average 4.6). The next appears as a better year generally, but its records are too incomplete to be of use. In the next four years 12 or more games were played in each season. This caused improvements in all departments to all, even fielding, for K. Harrison set a fresh record for total catches in a season with 11, and F. Seddon had 10, in 1940.

A. Morris beat G. Wing's 44 wickets by taking 47 in 1944 (average 6.6), B. Thompson took 44 (6.1) in 1945, and A. Thompson beat Morris with 48 (5.2) in 1946. Batting has provided little room for enthusiasm. R. Hazelton, in 1945, scored 75 against Middlesbrough High School, but this was 3/5ths of his total runs for the season. In 1946 A. Todd and J. R. Thomas made scores of 50, and the latter's 230 runs (average 25.5) was the best total for many years. Weather in 1947, in spite of its heat wave, caused two games to be cancelled, or we might have reached a total of 16 games. A. Thompson played several good innings, the best being 50 at Sedgfield.

Old Boys Here and There.

It is a distinction for the school to have no less than three old boys on the staff of the British Council in Persia, namely, J. SANDERSON, L. GALE and G. C. WING, M.C. They all hold the position of director and latest information reveals that they are stationed, the first at Shiraz, and the others at Isfahan. We have no doubt about cultural relations with Persia when so high a proportion of their direction is in the hands of Old Stocktonians.

ALAN BARKER has been tried for Warwickshire at cricket. Further news is awaited with interest.

R. A. A. DODDS, in reflective mood, writes of happy memories of "grim, enduring premises" in Nelson Terrace. He need have no fear that they will ever be left desolate. The architect who designed them was not a gold medalist for nothing.

W. S. SHIPMAN, settled at Ryhope, has achieved outstanding distinction as a breeder of Pedigree British Friesian Cattle and Clydesdale Horses. His value to us in dollars must be something considerable, for it is difficult to imagine his stock being made available for the home market. The list of honours heaped on him by N.F.U. and Agricultural Societies, of which at least seven call on his services as judge and adviser, exceeds the limits of our paper ration. May they both grow longer.

DOUGLAS BROOKFIELD, though Consul General at Kuning, does not limit his activities to that salubrious quarter—the Florida of China—fairlyland on the Yangtse. We hear of trips by air to Hong Kong and, in lighter moments, of spells of work as examiner of ambitious students in the graduation class of the Yunnan Training College.

E. LESLIE ROBSON has resigned his position as Clerk and Solicitor to the Hucknall U.D.C. to enter into partnership in Hucknall with Mr. G. R. BOLSOVER, also of Stockton.

Thorne Grammar School not long ago was privileged to have on its staff no less than three Old Stocktonians, L. WARD, Music Master; J. MACDONALD, Senior History, and J. B. BRADLEY, P.T. The triumvirate is now broken, however, J. Macdonald now presiding as Headmaster over the fortunes of Aireborough Grammar School, while J. B. Bradley proceeded to Edinburgh as Technical Representative to the Central Council of Physical Education. Thorne's loss is to the advantage of a Greater Britain.

E. L. LLOYD, now in Trinidad, has met TOM TOMLIN in that paradise. He explains inferior quality of writing and a trifling uncertainty as to spelling as due to an American pen. We were used to excuses of this convincing kind in years gone by, and indeed hope that age will not stale his fertile genius.

RAYMOND ELSWORTH, during two years of the war, served as officer directly responsible for the control of ammunition output at the Royal Ordnance Factory, Hereford. He has now moved on to the development of full scale production of anti-biotics for the Directorate of Chemical Defence, so we feel reasonably confident when the papers write in harrowing terms of micro-biological toughness in the future.

LESLIE WALTON is now a bank manager in London. He is reported to be looking very well and exceedingly cheerful, a fact which would suggest that at least one financial cloud is lined with silver.

LEONARD CLOSE, now Lieutenant Colonel, has been appointed C.O. of a field regiment of R.E.'s located at Tramway Road, Liverpool. At Alamein he was O.C., 145 Field Park Squadron, and later commanded a force of 2,000 Arabs. In civilian life he directs the fortunes of the Librex Lead Co. Ltd., and is consulting engineer to the Goodlass, Wall & Lead Industries Ltd. The direction of Field Regiments of R.E.'s, Arab hosts and large scale industrial concerns he finds child's play to the onerous job of dispensing parental advice and admonition to his children, who nevertheless seem to be showing signs of following in father's footsteps.

HORACE KING, B.A., Ph.D., now Headmaster of Regent's Park Secondary Modern School, Southampton, contested what is reported as the "most Tory constituency in England" and apparently shook them, since he raised the New Forest Labour vote from 11,000 to 22,000. Both he and Mrs. King are keen on public service. Dr. King is a member of the Hampshire County Council and Mrs. King is an Alderman and Chairman of the Southampton Health Committee. In a recent letter Dr. King writes of a hundred charming memories of C. W. King and of his wonderful influence on "grubby youngsters" like himself.

JOHN GUILÉ, now Town Clerk of Grantham, having tasted the joys of directing the fortunes of sundry towns up and down the country, has decided that it is time to settle down.

EDWARD J. BATTY functions as Auditor Examiner for the United States Government General Accounting Office—but would preferred to have been an instructor of the young. What strange ideas haunt the minds of mighty men. In his spare time he gathers oranges from his garden at Christmas time, which would suggest domiciliation in a Floridan paradise. His wife is a Stocktonian by descent, her mother having been born in this ancient town. He remembers all his class mates and former masters and mentions them individually with tender, reminiscent touches.

C. H. O'GRADY, back from the Army with Honorary Rank of Captain, and in civilian life a florist in Kilburn, after a varied and multicoloured career as Guardsman, champion boxer and member of the Metropolitan Police Force, has also decided that it is time to sit back-stage and enjoy the antics of others engaged in the hurly-burly of self advancement. Even so, this decision comes only after appointment as "court florist."

The habit of Old Stocktonians of working in threes asserts itself again at Oxford, where **M. G. STEWART** (St. Catherine's) and **A. WINSPEAR** (Nuffield College) are engaged as graduate students in research, the former in Chemistry and the latter in Economics, while **K. CLARK**, at St. John's, is pursuing an Honours Course in History.

T. A. WALKER continues his career of endless motion. It is 13 years since he was installed as President of the Stockton Wheelers, since when his installation has become an annual institution, and the wheels have gone on with their merry rotation at double speed. We hear that he has recently been called to the Presidency of the N.E. Sunday Wholesale Newspaper Association, and that he is apparently the youngest person in the country discharging functions of this nature. These dignities, we are glad to say, have in no wise affected his exuberance on our behalf. He remains the live wire at our social gatherings, an indispensable master of ceremonies, whose ready wit and tireless energy have made dull moments impossible. Long may he flourish—with his blackbirds and lighter latinity.

ROY ARCHER is progressing well in the world of art and has won an art scholarship to London.

His partner-in-crime during these happy days of the '30's, ALBERT VEITCH, is now happily engaged touring Birmingham area as representative to a Newcastle firm of engineers. Need we add that he performs his duties by motor-cycle, a mode of transport for which he ever had a strange delight.

This attempt at reviving a characteristic feature of "The Stocktonian" of years gone by is disappointing in the limited amount of news it yields. Perhaps this is inevitable. Old Boys have not yet settled down to life in this new world, and the habit of writing to the school, so ardently and faithfully encouraged in the old days by the well-beloved C. W. King, always remembered, has not recovered its ancient vigour. He made it a solemn duty to reply to all letters, whatever the cost in time to himself, and no one can take his place.

Many Old Boys regard the function of disseminating Stocktonian news of all degrees of seriousness as the most important service required of the Association. If this is your view, please act on it by yourself becoming the medium whereby grist is brought to the mill.

If items submitted since the publication of the 1939 Year Book and the War Time Bulletins have gone astray in the stress of the times and events intervening, we are sorry. There should be fewer loose ends in the future.

Old Boys' Successes since 1944.
