NOT TO BE TAKEN AWAY

Adventure, world travel and a great career

Yours in today's Royal Navy

If you want an active, exciting life of scope and opportunity you'll find it in the Royal Navy.

Today's Royal Navy has a vital, world-wide role to play. It offers you an assured and rewarding future.

As a specialist or technician, you'll have a good trade with good pay and excellent prospects. And you can add in world travel, sport in plenty, fine company—and an average of 6 weeks' holiday a year. You can join at 15. Or at 16 you can become one of the Navy's soldiers of the sea in the Royal Marines.

How you can become an officer. If you are aiming for a degree, 'A' levels, or expect to get 5 or more 'O' levels you could well qualify for a permanent or short service commission as an officer in the Royal Navy or the Royal Marines. And there are schemes which can help to pay your school and University expenses too. *Even if you are only 14, you should enquire now!*

For full details write to—

**The Royal Naval Careers Service (25OL1),
Old Admiralty Building, London, S.W.1.**

Please give your full name, age, school and qualifications achieved (or expected).

Royal Navy

Concerning Ourselves

The year 1966-67 has been quite a successful one in the life of the Old Stocktonians' Association. The Life Membership list has lengthened steadily, as 50 new Life Members joined between 30th September, 1966, and 30th September, 1967, which has taken the total of Life Members above the 800 mark. Lists of Life Members and Ordinary Members are published at the end of this Year Book.

The only change among the Officers of the Association results from the departure of Mr. J. J. (Butch) Davison, who was elected Hon. Treasurer at the A.G.M. in November, 1966. He has taken up a new appointment in Scarborough, and Mr. Tom Bellis has become Hon. Treasurer in his stead. The Committee was strengthened at the A.G.M. by the addition of Mr. Geoffrey Riddle, but has recently suffered loss by the death of Mr. G. Claxton Smith.

In the Rugby match the Old Boys won by the odd point of 43, but at Cricket the School won by 5 wickets, a more impressive margin!

The highlight of the O.S.A. year was undoubtedly the Dinner, attended by at least 130 people, and greatly enjoyed by all. The visit to us of Dr. Horace King and of Mr. W. T. Rodgers, M.P. for Stockton and a Junior Minister in the Government, was of course a great attraction in prospect and a great pleasure when it came.

OUR GUESTS

We have two very interesting visitors as guests at our Dinner on 5th January, 1968, in Sir Fife Clark and Mr. Denis Hardie, both Teessiders.

Sir Fife Clark has been described as Britain's top information man. A journalistic phrase, of course, but then Sir Fife started out in life as a journalist, and was reporting locally on Saturday afternoon cricket matches while he was still a boy at Middlesbrough High School. As Director-General of the Central Office of Information he was responsible for organising the highly successful British Pavilion at Expo '67, and he himself went to Montreal to open it. His office organises the British Exhibits at all major international exhibitions, but this is just one side of their work.

During his career Sir Fife has been Press Officer to several outstanding men, such as Winston Churchill, Aneurin Bevan, Anthony Eden. All this culminated in his present position. We feel highly honoured to have him as our guest, and anticipate with great pleasure meeting him and hearing what he has to say to us.

Our Old Boy Guest, Mr. H. Denis Hardie, is so well known to most of us that he needs no introduction. He was our Hon. Secretary for 13 years, and we can't quite picture an O.S.A. Dinner without him. We all know the saying about the Prophet and his Country, and we feel that perhaps not all Old Stocktonians realise how highly placed and highly esteemed Denis is in the Shipbuilding Industry. We all look forward to hearing him.

EVAN BALDWIN MEMORIAL FUND

HORACE KING—CHARLES ALLISON COMMEMORATION FUND

We are extremely grateful to those Old Boys who have generously contributed to these funds, the first appeal for which went out with the 1966-67 Stocktonian Year Book.

Amounts subscribed so far total £124 18s. 0d. for the Evan Baldwin Fund, and £85 9s. 0d. for the King-Allison Fund.

It must be admitted that the response has been disappointing on the whole, as fewer than 100 Old Boys have given subscriptions. We feel that there must be many more who intended to do so when they first heard of the appeal, but who have never actually "got round to" doing it!

The funds remain open for subscriptions until January, 1968. Will all those who wish to subscribe therefore please send their contributions soon, either to the Hon. Secretary of the Association or direct to George Little, 17 Raby Road, Stockton-on-Tees.

41st ANNUAL DINNER

The Dinner held at Spark's Restaurant on 5th January, 1967 was certainly one of the most successful ever held. We were, of course, gathered not only to meet each other but also to honour the most eminent Old Stocktonian, the Right Hon. Horace King, Speaker of the House of Commons. Rather might we say that he honoured us by his presence. There was no sense of ceremonious stiffness, nor on the other hand any unnaturalness about Dr. King's unbending. He was as obviously glad to be with us as we were to see him among us and to rejoice in the high honours to which he has attained. The whole evening had a gusto and infectious enjoyment about it that made it one that will long be remembered by all who were there.

Our President, Jim Hewitt, was most self-effacingly brief, and that left good time for our three main speakers, the Speaker, the Member and the Headmaster. They were all excellent in different ways, but it was of course Mr. Speaker whom we had chiefly come to see and hear. He gave us a good mixture of funny stories with some serious matter (to rest our laughing muscles?)—a speech which everyone enjoyed thoroughly.

We must not forget the excellent work behind the scenes of Brian Brand, who undertook the organisation of the Dinner.

In dinners of this kind, the larger the attendance the greater the likelihood that all who attend will meet several people they know well, and so that all will enjoy the evening greatly. It is to be hoped therefore, that the attendance at this dinner—probably a record—will mark the beginning of a new high level of attendance at our dinners. We commend to your attention the notice of the next dinner, on 5th January, 1968.

Following is a list of Old Boys and Staff who attended the Dinner. We suspect that the list is not quite complete and apologise for any omissions. The list of Old Boys is arranged in the seven decades of the school's existence, counting from the date of first attendance at the school.

1896—1905: A. W. Henderson, J. W. Corner, E. Dobson, L. Pringle, J. Wilkinson, N. Winn, C. W. Allison.

1906—1915: J. H. Sharp, G. C. Smith, S. W. Clarke, E. Goodchild, S. H. Curry, H. Bell, Horace King, H. Walker, W. B. Noddings, J. F. Guile, D. H. Shepherd, T. A. Crawford, J. S. Gill, F. L. Scaife.

Rigg, M. P. Wassall, G. A. Hodson, A. T. Foulds, B. Turner, D. Usher, A. Pottage, G. Good, G. A. Ward, C. Little.

STAFF: R. E. Bradshaw, S. Dumble, W. H. Munday, J. G. Rattenbury, R. B. Wright, D. J. D'Arcy, C. Bell, P. E. Hudson, J. J. Davison, B. P. Brand.

THE ANNUAL GENERAL MEETING

The A.G.M. was held in the Library at Grangefield Grammar School for Boys, on Thursday, 24th November, 1966. 15 members were present.

The List of Officials elected can be read on page three of this Year Book, with the exception of Mr. J. J. Davison, who was elected Hon. Treasurer but has since resigned on leaving Teesside.

The Statement of Accounts presented for the year ended 30th September, 1966, showed a balance of £700 19 11d. in the Life Members' Fund, and a balance of £144 7 0d. in the General Fund.

Membership of the Association was as follows on 30th September, 1966:

Life Members	753	(increase of 10)
Ordinary Members	195	(increase of 7)
Total			<u>948</u>

OLD STOCKTONIANS' BENEVOLENT FUND

Rather heavy calls were made on the Benevolent Fund during the period 1st January, 1965 to 31st December, 1966, but fortunately most of these were in the nature of short term loans.

Despite this the credit balance at the bank of £457 8 11d. on 31st December, 1965 was increased during the year by very generous donations from Messrs. P. Cowe and G. Beard, totalling £8 5 0d., by the £50 Bequest from our Founder President, the late Evan Baldwin, and by interest totalling £21 13 2d.

Thus on 31st December, 1966, the credit balance was £485 7 1d. as certified by Harold Dodsworth, Chartered Accountant, to whom our thanks are again due. Harold is a ruthless and determined man when carrying out the Annual Audit, but once that task has been performed his entire outlook seems to change and he becomes a most genial host. The Trustees have been fortunate during the years to have had his friendship and his guidance.

Since the 1966 Audit there have been further substantial calls on the Fund and though additional generous donations have been received it would appear that the credit balance for 1966/67 must show a decrease by the end of the year.

Teessiders are experiencing at first hand the threat of redundancy. Whereas as yet there are no signs of a return to the dark days which inspired the formation of this Fund we should be prepared, if necessary, to help our less fortunate fellows.

The Trustees would welcome donations which should be sent to the Hon. Secretary of the Association, at the School, marked **Benevolent Fund**.

ARMISTICE DAY SERVICE

On the morning of Friday, 11th November, 1966 representatives of the Old Stocktonians' Association assembled in the School Hall with the present boys and masters of the School to pay homage to the Old Boys who were killed in the two World Wars. Wreaths were laid at the two Memorials on behalf of the School and of the Association.

* * *

VISITORS' BOOK

The Headmaster and Staff are always pleased to welcome Old Boys at Grangefield. A Visitors' Book is kept on or in the desk which is on your right as you enter by the front door of the School. The book and desk belong to the Association, and Old Boys visiting the School are invited to sign the book and record personal news in it.

* * *

OLD STOCKTONIANS' TIES and BLAZER BADGES

A stock of Old Stocktonian Ties is now to be kept at the School, where they can be purchased from Mr. Rattenbury. Prices of present lines are 10/6d. (terylene) and 3/6d. (rayon).

Messrs. E. S. Maxwell, 1 Norton Road, Stockton, also carry a stock of terylene ties and of blazer badges.

* * *

Tributes to the memory of Evan Baldwin have continued to come in from all parts of the world.

From Johannesburg, South Africa, R. W. Burnand (1919-23) writes that E.B. is "remembered with great affection for his help and many kindnesses."

Wilf Eden, from Peterborough is "sorry to hear of the passing of E.B. No boy who passed through his hands could ever forget him!"

Jack Cheseldine from the Isle of Man; "Both he and his wife were real genuine people, and the community is going to be the poorer for their passing. Their home, as Bert Wears mentioned, was open house to many large gatherings."

F. Jackson (1906-1911), from Huddersfield; proclaims himself "an admirer of his work for the Old Boys."

Mrs. Baldwin's sister, Ethel E. Pringle writes from Roseville, New South Wales: "The photo of my brother-in-law (Evan Baldwin) is excellent, just as I last saw him in 1937 when I was over on a visit. I well remember the plans and talks for the Inaugural Meeting for the 'Old Boys.' I had the greatest admiration for my brother-in-law and was always intrigued by his dry humour and unending repertoire of funny stories—mostly about small boys!"

W. L. Wilson (1923-27) writes from Chorleywood in Hertfordshire: "He was a very good friend to me, helping me with my cricket for the Town Club and enormously in my studies subsequent to leaving school. I've never met a more truly great man or one with greater understanding. Mind you he did not understand me many years ago when I described the locus of a point as a straight line!"

In Memorium

G. CLAXTON SMITH (1910-13) was widely known in Stockton as a "veteran cyclist." He died during August, 1967, while on holiday in Northern Ireland. He had been a keen cyclist from the age of 12 and had toured widely not only in Great Britain and Ireland, but in Germany, Austria, Switzerland, France and Italy. He had long been a loyal and valuable member of the Old Stocktonians' Committee,—and a regular attender at Old Boys' Cricket Matches.

* * *

Old Boys of pre-war vintages will be sorry to hear of the death last year of Mrs. V. NICHOLSON, the wife of Mr. H. Nicholson, Chemistry Master from 1906-1947. She was always active amongst the Staff wives who used to help provide tea for the spectators in the days when the School Sports were held on Stockton Cricket field. She left a son, Brian (1937-44) who is on the Staff of Wellington School, Somerset, and two daughters, both "Old Girls" of S.S.S., Betty who lives at Chesterfield, and Freda who lives near London.

* * *

We are sorry to hear of the recent death of W. N. LOWTHER, an outstanding figure of his time (about 1923-29). He was Captain of the School, Captain of Football, Captain of Cricket, Victor Ludorum and first Captain of Rugby Football, in 1928-29 when the game was started in the school. He was at Leeds University from 1929-33, and from about 1935 till early in 1967 he taught at Northallerton Grammar School. He was well known in Northallerton Cricket Club, first as a player and later as Treasurer. He did not marry.

TIMOTHY WILLIAMSON HALL—It was with great distress that his school friends learnt, when they returned for the new term, of Tim Hall's so very unexpected death. We knew him as a strong and hearty boy, and will remember him for his warm-heart and his friendliness and his joy in life. We offer his brother and all his family our deepest sympathies.

OLD BOYS HERE AND THERE

RON ANGEL (1943-49) has recently enrolled as a student at the Middlesbrough College of Education. This represents a return to study eighteen years after leaving the academic groves of Nelson Terrace. Earlier in his career he had a spell as a Parachutist, but of recent years his name has become very well-known in local Folk-singing circles, for Ron has a fine bass voice and well knows how to use it. (His record, with the Fettle's Folk Group, "Ringing Iron" and "Twenty Pound Dog" should be in everybody's collection (advert).

He is, incidentally, entitled to sign "letters to the Editor," if he ever writes any, with that well known signature, "Father of Six."

* * *

W. ARROWSMITH (1954-61) obtained his M.R.C.S. and L.R.C.P. in 1966, and is now House Surgeon at Pontefract General Infirmary.

* * *

DAVID ATKINSON (1957-64), who started in the I.C.I. Quantity Surveyor's Department has now moved to work with a private Quantity Surveyor in Newcastle.

* * *

ROGER ATKINSON (1955-62) is now teaching at Stephenson Hall, Billingham Campus School. There he has joined a number of other Old Boys on the Staffs of the different Halls, including CLIVE BELL, J. R. HERON and others.

* * *

K. BAINBRIDGE recently completed Graduate studies in Chemistry at the Constantine College of Technology by completing a course at Honours degree level leading to the Graduateship of the Royal Institute of Chemistry. He is now working for I.C.I., Mond Division, as a Technical Officer.

* * *

ALAN BARKER (1956-63) went from school to Didsbury College of Education, where he completed his training, with distinction in General Sciences, in 1966. On the advice and recommendation of the Principal, Alan applied for and was granted unconditionally a place at Salford University, to which he went in the autumn of 1966.

* * *

LES BARTLETT, who runs A. L. Bartlett Ltd., Pharmaceutical Chemists of Southampton recently took the Ministry of Transport's Yachtmaster's Course at Southampton University and now holds Certificate no. 591. We hope that this entitles him to wear a splendid cap. He is a member of Bitterne and Woolston Rotary Club, and as such welcomed to honorary membership of the club that eminent Old Stocktonian Dr. Horace King who is M.P. for their constituency, Southampton, Itchen.

* * *

MALCOLM BEAVER (1952-59), whose success in achieving an Honours Degree in English at Leeds University is recorded elsewhere, has been appointed to Thorne's House Grammar School at Wakefield. His brother JOHN (1954-60) is lecturing in the University of Manitoba at Winnipeg. The youngest of the trio, RICHARD (1957-60), has also just secured a B.A. Hons. Class II in General Arts at Durham University, and hopes now to spend a year in Canada. This family is no longer based on Huddersfield, as their father, the former Headmaster of Newham Grange School, has moved to London to take part in the work of the Schools Council.

R. M. BLAND (1951-57) returned from Severnside to Billingham in February, 1966 as Road Traffic Manager, and as such was responsible for I.C.I. long-distance heavy tanker traffic. Wishing to broaden his commercial experience, he obtained a transfer to the Publicity Department of I.C.I. and is now responsible for advertising of Building Products and certain other non-agricultural products. This work brings him into contact with our O.S.A. President, JIM HEWITT, and occasionally with NEIL AUFLICK, one of the Patents Officers.

We learn from the Evening Gazette about "*Merlin*" a wonder machine built by KEITH BODDY (1949-56). We are there assured—and we don't dispute it—that it would be quite impossible to explain the machine to us and to our fellow laymen; but that it detects radio-activity in the human body, and diagnoses types of anaemia, heart complaints, glandular troubles, ulcers, and muscular dystrophy. Keith now works in a Scottish University, and was previously at Liverpool and London Universities and with the A.E.I. atomic establishment.

* * *

We confess that the photo accompanying the Gazette article suggests to us an episode from the adventures of Dr. Who, so we must express the hope that Mr. Boddy has his machine well under control. At the same time we would assure him that our frivolity is only skin deep.

* * *

STUART M. BOOTH (1958-65) has just gone to Hull University, where he is to study for B.A. Special Honours in Social Studies.

* * *

The BOYES brothers, MICK and TERRY, are still distinguishing themselves on the Rugby and Cricket fields. MICHAEL (1951-58), who is teaching at Tunbridge Wells High School for Boys, plays Rugby for Crowborough and Cricket for Tunbridge Wells, scoring 2000 runs this season. TERENCE (1955-60) is studying Agriculture at Nottingham University, plays Rugby for his college and cricket for Kegworth.

* * *

His many friends will be sorry to hear—if they do not already know—that ERIC BROWN (1931-35) is ill again, with what he describes as an "extension" of his previous illness. He was taken ill on Monday, 10th July, and has not yet, at the time of writing been able to return to work. We all wish him a quick and complete recovery.

* * *

KEN BURNS (1957-64), after graduating in Chemical Engineering at Birmingham is working for British Titan Products, Teesside.

* * *

D. G. BURTON (1956-63), who graduated in Economics at Leeds University in 1966 was awarded a Social Science Research Council Postgraduate Studentship in the School of Economic Studies at Leeds.

DAVID T. CALVERT (1955-61) left I.C.I. Ltd. in 1963 to go to St. Andrews University. He greatly enjoyed his four years there, and has now left with a good Honours degree, a Blue for University Sport, and a wife who is also a Sassenach graduate of St. Andrews! Mr. and Mrs. Calvert have now moved to Ayr where Mr. Calvert has taken up an appointment for the Ministry of Agriculture and Fisheries as Scientific Officer at the Hannah Dairy Research Institute. They live on a Nature Reserve, and everything in the Reserve is lovely, including of course Mrs. Calvert. The scientifically minded will be interested to hear that David is helping to construct, and will use, the largest Gradient Layer Calorimeter in the world. Although this involves him considerably in Physics, his research is concerned with the temperature regulation of cattle and sheep. The linguistically minded will be pleased to hear that David's "School French" enabled him to get on tolerably well on his honeymoon in Paris.

* * *

R. CAMPBELL (1961-63), having taken his Education Diploma at Hull University is now teaching Geography at the Sir Leo Schultz High School in Hull. We understand that he is very "well in" with the Domestic Science Staff in this school—in fact he has married the girl.

* * *

BRIAN M. CARR (1956-63) is now on the staff of Richard Hind School. Colleagues of his on that staff include IAN BENZIES, GRAHAM BENZIES and BARRY SMITH.

* * *

A. J. CARTER (1953-60) graduated at Birmingham University in Chemical Engineering in 1963. Since then he has been doing research work in Chemical Engineering leading to Ph.D., Dr. Carter went with his wife to Canada at the end of January, 1967, to take up a position with the Polymer Corporation Ltd., at Sarnia in Ontario.

* * *

Many Grangefielders, past and present, were to be observed among the crowd who went to Hartlepool Rovers ground one day last March to cheer Durham County on to victory in the County Championship Final Replay against Surrey. Their disappointment that the game and the Championship ended in a draw must not obscure the fact that Durham are Champion County of England (even if one should really insert a 'joint' before that title.) ARTHUR CHAPMAN is of course one of their stalwarts, and when Mike Weston was not available, Arthur stepped in as Captain of the side in their early successes.

More recently, in September, 1967, Arthur played for the North of England team which defeated the England team that was to tour Canada.

In between these two representative appearances, Arthur made another public appearance, when he married Miss Stella Collins on 26th August, 1967. We wish him and his bride all joy.

Rather similar news has reached us about two cousins. D. R. CLARK (1956-63), who is doing post-graduate research in Chemistry at Newcastle, was married in September, 1967, to Miss Joan Cross. His cousin MICHAEL CLARK, who is doing post-graduate research in Chemistry at Durham, was married in August 1967 to Miss Sheila Graham. Our wish for both these young married couples is that they may fulfil their promise—and keep their promises!

* * *

RICHARD CLUBLEY (1956-63) has returned from Nigeria where he has done a year of V.S.O. and now has a post with Marconi's in London.

* * *

E. D. (Ted) COOPER (1957-62), formerly of the Penzance Police Force is now employed by the Power-Gas Corporation Ltd., well-known in Stockton, Baghdad and elsewhere. He studied for four years at Loughborough C.A.T. (now University) and was awarded the College Diploma in General Engineering (Mechanical Bias) in 1966. One year he worked on the Teesside Traffic Survey with P. R. TWIDDY, T. EASTON, P. R. ORD, A. JACKSON and others, but in 1966 he travelled by train to Baghdad, Iraq, to visit an Arab friend whom he had met at college. The trip was quite interesting, and included outbreaks of cholera, earthquakes, coups d'état, quarantine camps, stoppage of trains between Baghdad and Istanbul, Syrian army food (?) all free extras!

* * *

G. P. COWLEY (1961-66) has been working since he left school last year for Dorman Long's. He has now been admitted to a sandwich course at Constantine College, leading to B.Sc. in Metallurgy. He will do seven months each year at Constantine and the remaining time at Dorman's.

* * *

P. DAVIES (1960-66), younger brother of D. L. DAVIES (1953-60), has gone to Bede College, Durham, where he is to train as a Physical Education Instructor.

* * *

N. DONKIN (1958-63), having completed his one-year course in Education at Durham after taking B.Sc. (Econ.) at the London School of Economics, has gone to Bradford to the Hanson Grammar School, where he is introducing the subject of Economics in the school.

* * *

PETER L. DUNNING (1951-58) went to Manchester University on leaving school. He must have found Manchester to his liking for, on completion of his degree in History and his post-graduate certificate in education, he took a post at a Manchester Technical High School. After three years he moved, but not far, to Moseley Hall Grammar School on the Cheshire side of Manchester, a large school of some 1000 boys. But we observe that Peter still lives in Fallowfield, Manchester 14.

NOEL DUNSTONE (1957-64) has now graduated in Economics at Newcastle University and has gone to Birmingham to work for a Computer firm.

* * *

R. EDMUNDSON (1957-64), fresh from graduating in Economics at Sheffield, is at present employed at County Hall, Durham, as a trainee accountant. He hopes to qualify as a Chartered Municipal Treasurer within three years.

* * *

DAVID H. ELEY (1952-57) served his articles with a local architect on leaving school and then went in 1961 to the Leeds School of Architecture. On completion of his training there in 1965 he returned to Teesside as Junior Partner in the firm of Trotter and Miller, Architects. He plays Rugby for Billingham.

* * *

J. R. ELTRINGHAM (1964-66), after a year with Foden's, is going this autumn, 1967, to Salford University (not Brunel University, as erroneously stated in the 1966-67 Year Book).

* * *

JOHN G. FARRINGTON (1956-63) who has just gained his B.Sc. in Civil Engineering is working as an Assistant Civil Engineer for the Power Gas Corporation on the construction of the first British designed oil refinery at Killingholme in Lincolnshire.

* * *

R. GARDNER (1926-31) is serving as Inspector of Taxes in Sheffield. He has met several Old Boys who are in the same line of business, of whom he mentions E. HOULDCROFT (about 1932-36) of Sheffield; Jack SEDDON (1935-39), now in Mansfield, and G. F. S. SMITH, a contemporary of his own, now at Derby.

Mr. Gardner is delighted to see that a contemporary of his, JIM HEWITT, is President of the Old Stocktonians, and found a photograph of Form 2a, 1926-27, showing them both, and also MAURICE SUTHERLAND. The Form Master on that photo, Mr. LAVERICK, is, we hear, living in retirement at Hutton Rudby.

Mr. Gardner has made a very practical gesture of appreciation of the Old Stocktonians' Association by sending in a second Life Subscription. He feels he has had his money's worth already out of the first one! We are not sure whether he will like us to give publicity to his generous action, but we do so in the hope that others may think likewise!

* * *

DAVID GATHERGOOD (1957-64), recently graduated from Newcastle, has been appointed to a post with the British Iron and Steel Research Association. He is working as a Scientific Officer at their laboratories at Grangetown, Middlesbrough.

J. S. GILL (1915-18) retired from the Post Office Engineering Department in 1966 with a record of "no sick leave" in over 41 years' service. We wish him a continuance of this excellent health in his retirement. Since 1939, he served as Area Training Officer for four years and the remainder as Area Efficiency Engineer—the area covers some 2,000 square miles and 700 personnel. Mr. Gill was responsible for recruiting Staff and was always pleased when he had to interview a youth from his old school. The P.O.E.D. offers a good career with all the latest developments in Telecommunications.

Mr. and Mrs. Gill are still musical and are associated with Stockton Stage Society, for which Mrs. Gill is the pianist. Their elder son, Stanley, is an L.R.A.M. and works with Liverpool Education Authority. Their younger son Alan is now with Peat Marwick Mitchell at Middlesbrough, after having been in Persia as Head Accountant for the Iranian Oil Consortium. He learnt the 'cello at Darlington Grammar School, in company with Mr. Horsman, now Music Master at Grangefield.

In 1959 Mr. and Mrs. Gill enjoyed an extensive tour in the U.S.A., and now that he has retired they are only waiting for the end of the "freeze" to go there again!

* * *

DAVID GLEW (1957-64), having graduated in Architecture at University College, London, is now on the first part of an M.Sc. Course. This consists of practical training with a firm of Building Contractors and lasts until Christmas, when he will return to U.C. for the remaining 18 months. He finds himself very happy and well-suited with Architecture. His first summer vacation he hitch-hiked with PETER HARTLEY right across Europe to Istanbul and Greece, and last year he and his girl-friend reached Morocco by the same means.

* * *

We have before us the programme of an exhibition of oil paintings by JACK GRAINGER (1929-34) held at the Art Gallery at Bury in January and February, 1967. Most of the paintings are of scenes on and around Teesside, Upleatham, Hutton Rudby, Ovington, Worsall, Yarm, South Gare, Stokesley, Over Dinsdale. Mr. Grainger has been holding exhibitions for about ten years now. For a long time he worked in Stockton Public Library, but is now working for a Book Company based in Nottingham.

Our old friend and for many years Hon. Sec. of the O.S.A., DENIS HARDIE, was appointed in November, 1966 to be a Local Director of Vickers Limited Shipbuilding Group (Vickers-Armstrong's Barrow Shipyard). In this capacity he has special duties concerned with shipbuilding at Barrow, but still remains his group appointment as Group Training Manager, looking after the interests of the shipyard at Walker and the Dry Dock at Hebburn as well as his home station at Barrow.

Members will see that Denis is to be the Old Boy Guest at this year's Annual Dinner on Friday, 5th January, 1968, and we certainly hope and expect that many of his old friends on Teesside will be there to welcome him that evening.

PETER HARTLEY (1957-64), having achieved a B.Sc. in Chemistry at Birmingham University, is now going to Manchester University to do a Management Course, with a view to going in for Advertising.

* * *

TOM WINSTON HOPKINSON (1918-23), who lives in Acklam, was elected in 1966 an Associate Member of the Royal Society of Health. He is also member of the Committee of the Middlesbrough Ratepayers' Association, and a member of St. Mary's Church Council, Acklam.

* * *

COLIN HOWARD (1956-61) passed the Solicitors' Qualifying Examination, part II in February, 1966. He was admitted to the Rolls as a Solicitor on 1st December, 1966.

* * *

W. G. HUDSON (1956-63) took his B.Sc. in Chemistry at Newcastle University in 1966, and is now working for British Titan Products Ltd. He may on occasion be seen as the centre of an admiring group on the pavements of Stockton High Street, on a Saturday morning—the admiration being directed to his magnificent Old English Sheep Dog.

* * *

JOHN WILLIAM HUME, whose nephew DAVID MACADIE is mentioned later in these notes, attended S.S.S. just before the last war. He is now a Wing Commander in the R.A.F., stationed at High Wycombe. He was awarded the O.B.E. in the New Years' Honours List, for work at R.A.F. Scampton in Lincolnshire, and was presented with it by the Duke of Edinburgh.

* * *

JOHN INGHAM 1957-64 has now moved from Kensington to Kampala, where he is doing a year's teaching under the V.S.O. Scheme.

* * *

TOM JORDAN (1952-59), now teaching at Newham Grange School, obtained his pilot's licence when he was 17. At one time he thought of making flying his career, but later turned to teaching. In November, 1966, he returned to the air, though not as pilot, when he went up with five of his pupils to have a look at Yarm from above. This was part of a special study of the town of Yarm which these boys were making as part of their C.S.E. Geography course. Quite an interesting lesson, we should think!

* * *

BARRY KEANE (1955-63) had unfortunately to cut short his year at V.S.O. in Nepal, for health reasons. He was for two terms at Bede Hall, Billingham, and has now returned very near home by joining the Staff of Grangefield Grammar School for Girls.

* * *

J. KIDD (1952-59), who was for a time a lecturer in Law at the University of Khartoum, has now returned to England and is lecturing at Exeter University.

We have given elsewhere an account of the visit to Stockton on the occasion of our Annual Dinner, of Dr. HORACE KING, Speaker of the House of Commons.

During the year Dr. King has received a number of honours. Durham University has conferred on him a Doctorate of Civil Law, and the Universities of London and Southampton have each awarded him a Doctorate of Law. He has also been elected to a Fellowship at his old College, King's College, London, and has been made a Fellow of the Royal College of Preceptors.

Dr. King has also been made a Freeman of the City of Southampton, one of whose constituencies he represents at Westminster.

We find also the name of Horace King among the authors—the book “State Crimes,” an account of eight famous political trials, Sir Walter Raleigh, Charles I, Guy Fawkes and others.

Finally we congratulate Dr. King on his marriage to Miss Una Porter.

* * *

DAVID S. KIRTLEY (1927-34), is now Deputy Controller of Surtax, Inland Revenue. He sends greetings to all the multitude of surtax-paying Old Boys, and hopes that they will fork out their extra 10% with a good grace.

We were pleasantly surprised to hear that Surtax has Controllers, as our impression was that most forms of tax had got out of control altogether.

* * *

GEOFFREY GIBSON (1956-63), having graduated in Electrical Engineering at Manchester, spent a quiet summer at home in Westmorland, building a garage and farming on neighbouring farms. He has now taken up an appointment in the Automation Systems Division of Ferranti Ltd. at Wythenshaw. There he is working on the design and development of direct on-line control units using the Argus computers. He has met another Old Stocktonian who works there—COLIN HUGHES.

* * *

Three contemporaries of Dr. HORACE KING who appear with him on a photo of a S.S.S. Cricket XI of about 1916 are ERNIE GOODCHILD of Norton, HERBERT WALKER of Coventry, and NORMAN WALTON of Enfield. The first two attended the 41st Annual Dinner and met Dr. King and each other again. Norman Walton could not attend, but he wrote a letter from which we propose to quote at some length.

“My maiden name was Walton—Norman Walton—and I darkened this earth in 1902. I am, I believe, responsible for that well-known poser: ‘Why was he born so beautiful—why indeed was he born at all?’

This notable event took place in Stockton and, in due course, I attended the ‘Sec.’ until 1918 when I entered into an apprenticeship as a constructional draughtsman, with Dorman Long and Co., Middlesbrough.

In 1924 I decided to attempt to make a fortune in London—I am still trying.

My uncle George Walton was a headmaster at a Stockton school and my Aunt Ethel was also a teacher. Their son, Alan, holds an administrative post at Leeds University.

During the summer of 1965, the Middlesbrough ‘Gazette’ was making a fuss of the appointment as Speaker of Dr. Horace King. I had published, in that paper, a photograph of a ‘Sec.’ Cricket XI, of about 1916, in which Horace appeared—together with the writer.

This led to one of the biggest thrills of my life as I received a number of most interesting letters from Old Boys, including Ernie Goodchild and Herbert Walker.”

Mr. Walton went on to regret his inability to attend the Old Stocktonians’ Dinner at which he would have been able to renew many old friendships and acquaintances. We hope we shall have the pleasure of seeing him at one of these functions soon.

Dr. JOHN A. LIVINGSTON went to Stockton Secondary School at the same time as WILF NODDINGS, but now they are both hazy as to the exact date. But Dr. Livingston does remember that he had to stay an extra year at school, in 1920-21, in order to learn sufficient Latin to qualify for admission as a medical student. During this year he did nothing else but Latin, and was taught solely by Evan Baldwin. He studied Medicine in Newcastle and qualified M.B., B.S., in 1926. He then for a short time worked with Drs. Irving and Manners (Van Mildert House, on the corner of Yarm Road and Westbourne Street) before setting up on his own in Haverton Hill and Billingham. In 1936 he gave up General Practice, went back to the University and took the further qualifications of B.Hy., D.P.H., and after a further spell of hospital work in Middlesbrough joined the Public Health Department in Hendon in 1938. There he was appointed Deputy M.O.H. and put in charge of the Fever Hospital.

He remained in Hendon except for a spell of three years in the Army, taking over complete charge of the Hospital. Subsequently, as well as continuing as Director of the Infectious Diseases Hospital, he was appointed Consultant in Infectious Diseases to the Hendon Group of Hospitals.

* * *

HUGH LIVINGSTON, one of his two brothers, spent some years in the family business, and then became a Chartered Secretary, in the employment of I.C.I. Billingham. He went to Glasgow in 1941, to the Hogarth Shipping Company. He retired in 1965 and is now an Income Tax Consultant.

* * *

The third brother, DAVID LIVINGSTON, was also in the family business, but joined the R.A.F. and became a Squadron Leader and was awarded the M.B.E. Since the war he has had a career with Airports and is now Manager of Prestwick Airport.

* * *

The sister of the above three, Nancy, is now married to GRANVILLE HEWITT, J.P., well-known in Stockton Conservative circles, and himself an Old Stocktonian.

* * *

R. LUDBROOK writes from Melbourne in the middle of their summer—fortunately coinciding with one of our milder winters. To him "Old England" seems at times to be a long way away, but frequent visitors from U.K. help to keep his ties with England very strong. He often meets JACK WRIGHT, another Old Stocktonian who is in charge of Head Wrightson's in Australia. Whilst their companies are strong competitors (Ludbrook is with Davy Ashmore), we are pleased to hear that these two Old Stocktonians are still very close friends.

* * *

DAVID MACADIE (1957-64) is working at I.C.I. (Agricultural Division) Billingham. He has just finished a three year Sandwich Course in Mechanical Engineering at Constantine College. He plays soccer for Norton C.C.T. Football Club, which information he draws to the attention of all concerned with Rugby Football at school!

T. McCARTHY (1956-64), now B.A. (Cantab), has gone to Birmingham University to do postgraduate study for an M.A.

* * *

J. F. McCLEMONT (1955-62) has just graduated as a Doctor from Edinburgh and is now doing a spell on the Hospital Staff at Bishop Auckland.

* * *

DEREK M. McEWEN (1943-50), after six years in Cardiff, is now a senior administrator in Barclay's Bank Ltd., Trustee Department, Darlington.

* * *

ALAN MOORE went from school to Loughborough Training College and then joined the R.A.F. in October, 1966. He passed out of the R.A.F. Officer Cadet Training Unit at Henlow in February, 1967, so he is now Pilot Officer Moore (A.F.). He is commissioned in the secretarial branch, and maintains his old interests, especially in gymnastics.

* * *

DAVID C. MORTON (1954-61) who graduated in Economics at Newcastle in 1964, is now working as a Research Officer in the Bureau of Statistics under the Australian Government in Canberra.

* * *

M. MORTON (1956-63) has now completed his course in Mechanical Engineering at Sunderland Technical College and obtained his H.N.D. He has gone to London for a one-year specialist course at the National College for Refrigeration and Air Conditioning.

* * *

GEOFFREY NATTRASS (1955-62) did not waste his vacations during his time as a Law Student at King's College, London. (Nothing is implied about his terms.) In the summer of 1963 he worked and toured extensively in Canada and the U.S.A. In 1964 he worked and toured extensively in Australia. 1965 was his finals year, but he was ill and actually took his final exams in Kingston Hospital, in bed with Rheumatic fever, and was granted an "aegrotat" degree of LL.B. A year later he had taken his Law Society exams and was going in October, 1966 to London to begin two years articles with a firm of solicitors. But before, as he puts it "unfortunately" having to "settle down into permanent employment" he teamed up once more with PHIL DOVER his companion in Canada and U.S.A. and circumtoured the Mediterranean, crossing Europe to Turkey and the Near East, and back along the North African Coast. He found it impossible to get temporary employment in Algeria, so returned from there to France, and so home.

* * *

K. NEWTON (1953-60) took his B.Sc. (Econ.) at Hull in 1963. He has since been in Canada, at Hamilton, Ontario, where he has now achieved his M.A. He has been offered a place in Vancouver where he hopes to take his Ph.D.

MALCOLM W. OZELTON (1953-60) qualified for the degree of Ph.D. late in 1966 and then went, with his wife, to U.S.A., where he is undertaking a research programme into the electronic properties of liquid metals, in the Metallurgy Department of the University of Minnesota, Minneapolis. He writes that his one regret is the distinct lack of cricket played over there. As we remember somewhat ruefully his brilliant catching at rather silly coverpoint we share his regret, but feel sure that he will do a little missionary work among the unconverted.

* * *

L. K. PARNABY (1957-64), who has just graduated in Civil Engineering at Leeds University, has begun a two-year Graduate Apprenticeship with British Insulated Callenders' Construction Company Ltd. He is to be based initially at Thornton Heath in Surrey.

* * *

A visitor to Grangefield from "Rebel Territory" at the end of November, 1966, was DAVID PILBROUGH (1948-54) from Rhodesia. On the last occasion when he visited us he was President of the Students' Union of Salisbury University, on the way to an international Students' meeting in South America. Now he is Senior Technical Officer of the Standards Association of Central Africa. He is now married,—his wife is German and they were on their way to Germany for a visit. His visit here evoked many memories of the first years at Grangefield,—the Rugger teams of which David was a prominent member, and "Ruddigore," the first G and S we did, in which he danced a brilliant hornpipe. We look forward to more visits, though from so great a distance they must obviously be rare.

* * *

BERNARD PLAISTER (1963-65) is serving in the Royal Navy as a Radio Operator. He has spent most of 1967 overseas on H.M.S. Ashanti.

* * *

J. E. POLLARD (1957-64), now B.Sc. Dunelm, has gone to Edinburgh for a one-year course in Chemical Management.

* * *

MIKE PURNELL (1953-61) is going in the Autumn of 1967 to Imperial College, London, for a year, to take the post-graduate Diploma of Imperial College. We are pleased to report that his Lagonda is still at large, and has recently been seen protruding from his father's garage!

* * *

DAVID RAYNER (1955-63), who has just graduated in Civil Engineering from Imperial College, London, is working for Taylor Woodrow at Walsall on a Motorway.

We hear that his brother GRAEME (1959-66) is playing for University College 1st XV.

M. J. REA (1954-59) went from school to the then Loughborough College of Advanced Technology. He read Aeronautical Engineering, graduating in 1965 with Honours in the Diploma of Technology now renamed B. Tech. since the College became a University. Since then he has been working for Rolls Royce Aero Division, in their Noise Suppression Group which is based at Hucknall, Notts. To the mere layman living within a few miles of Middleton St. George Airport, this seems an all important aspect of Aeronautical Engineering, and we wish Mr. Rea all possible success in his research.

* * *

RAYMOND T. REED (1950-57) is now L.D.S., R.C.S. and D. Ortho, and is working in Addenbrooks Hospital, Cambridge.

* * *

KEITH REEKS (1956-63) of Hurworth, now practising as an optician was married recently to Miss Pauline Staples. We observe that the young couple live quite near to Keith's old school, and we wish them every happiness.

* * *

PETER G. RHODES (1946-51) became an Associate Member of the Institute of Mechanical Engineers in November, 1966.

* * *

Dr. RONALD RICHARDSON, (who was Dux of the School in 1952) emigrated to the U.S.A. some years ago, and works for an organic chemicals firm in Wilmington, Delaware. Dr. Richardson is now responsible for applied studies of new organic fluorine products at an experimental station.

* * *

ROBERT S. RUDDOCK (1912-17) has recently returned to Teesside and has now joined as a Life Member, the Association in which he was active in his younger years. He particularly hopes, of course, to renew contacts with his friends of former times.

* * *

R. W. RUTHERFORD (1914-17) is now living quietly in retirement at Bordon in Hampshire, near the Surrey border. His friends will be pleased to hear that he is now free from the eye trouble which plagued him for two years. Mr. Rutherford was, of course, Managing Director of the Power Gas Corporation Ltd. until his retirement.

* * *

D. S. SCOTT (1956-58) is remembered in Grangefield Staff Room—among other things—as one of the Hot Dog team of the late 1950's.

He has now been living for almost five years in Plymouth, where he teaches Geology, Geography and Biology at Devonport High School. In between straightening out a new house and keeping his young son entertained, he is studying for an external B.A. which he hopes to complete in 1969. He was looking forward to a visit from GEORGE BAINBRIDGE (1951-58) during the summer of 1967. We can from personal experience recommend a stay in Plymouth to any other North-Easterners who may be wondering what to do with their holidays.

We understand that there has recently been considerable confusion among the Sharps in the Law Department at Cardiff University. One is F. R. SHARP (1957-64) who after a year in industry went to Cardiff to study Industrial Chemistry in 1965. Although he passed his exams at the end of the first year, he then decided to change over and become a Law Student, which he did at the beginning of the 1966-67 session. There he found P. W. SHARP (1958-65), who started his study of the Law there in 1965. We look forward to the future establishment of the Solicitors' firm of Sharp and Sharp.!

* * *

KENNETH SHAW (1953-60) was awarded his Ph.D. at Imperial College, London, in 1966 and then went to Iowa State University where he is doing post-doctorate work in the Department of Chemistry.

* * *

NORMAN SHEARER (1936-40) is now one of Her Majesty's Inspectors of Taxes, working in the Covent Garden district—which, we surmise, may present him with some interesting problems.

He was in the fifth form in the historic year 1939-40, and it may interest many of the younger generation to hear what happened to their schoolboy predecessors of those days. War broke out just before what was to have been the beginning of the term, and it was decided that it was not safe to house 300 boys and 300 girls in the prominent building in Nelson Terrace which then housed what are now the Grangefield Grammar Schools. So the unfortunate boys and girls were compelled to take the term off! The exceptions were the fifth and sixth forms who crept furtively into school twice a week to be set homework, hoping that no lurking German bombers would spot them and exterminate them.

Finally the school re-opened in January, 1940, in a building then known as Ragworth Hall, (now demolished, I am told), near the duck-pond on Norton Green. But January, 1940, was one of the coldest months of the twentieth Century, and the heating arrangements at Ragworth Hall were not efficient enough to cope with such low temperatures. All the plumbing was frozen solid, and even the ink in the inkwells froze. The unfortunate schoolboys were compelled once more to go home, and could only begin attendance at school again when the weather moderated.

Later in the year the air-raids started, and much more frequent than the air-raids, the air-raid alarms. Whenever the sirens sounded the whole school traipsed down into the air-raid shelters in the grounds, to spend the rest of the period or the morning, until the all-clear sounded, usually in some hearty community-singing, loud rather than tuneful.

Such were the studious conditions in which Norman Shearer and his fellows prepared for their School Certificate exams!

From school he went, after an interval, into the R.A.F. in which he was a navigator. Then after demobilisation into the Civil Service.

His old French master is gratified to learn that Mr. Shearer still remembers the first phrase he learnt in French:—

*"Un bon vin blanc
Enfin je suis content."*

and hopes that he has derived much moral benefit throughout his life from the profound truths enshrined in that homely saying.

Mr. Shearer is much interested to follow the distinguished career of one contemporary of his, Professor KEITH STEWARTSON, F.R.S. He says: "It was obvious at Stockton that he was something exceptional although how good perhaps was not so obvious."

* * *

ALAN SPEARS (1949-56) went from school to Sheffield University to study Geology. In due course he took his degree, stayed on to do post graduate study, and in 1963 took his Ph.D. He is now a lecturer on the staff of his own university, and is married and has two children.

* * *

J. STILL (1960-65) has now gone to Ponteland Training College to train as a Physical Education Instructor. He is remembered at school as a particularly promising bowler, and the Old Boys' team of 1965 lost their first four wickets to him. His father (ALAN) and his uncle (LESLIE) the Librarian at Billingham, were at S.S.S. in the 1930's, while his two cousins are in the upper part of the school now, so this is a family with many ties with Grangefield.

* * *

PHILIP TROTTER (1957-65) went two years ago to Manchester University to study for a degree in French. He has been playing regularly for the University 1st XV, and was "on the fringe" of the Durham County XV last season. His academic interests, however, have now undergone a sea-change, for we hear that he has left Manchester and has secured a place at Hatfield College, Durham, where he is to study Anthropology and Sociology.

His elder brother DAVID (1954-61), having completed his degree in Dentistry, recently took unto himself a wife. A lucky year for him.

* * *

PETER TWIDDY (1955-62) graduated Ll.B. with Second Class Honours at King's College, London, in 1966. He has now gone into the Estate Duty Department of the Inland Revenue—dealing with the money you didn't manage to spend before you died, Dear Reader.

The father ERIC TWIDDY (1935-39) and the uncle PETER TWIDDY (1932-40) of the above were observed by one of our travelling spies at the Hartlepool Rovers ground in March on the occasion of the County Rugby Final Replay. ERIC was formerly with Eaglescliffe Crome Chemicals and is still with the same combine but has recently moved to Harrogate, with A.C.C. (Fertilisers) Ltd.

PETER, after spending most of the war with the East African troops of the K.A.R., returned to England and went to Oxford. Then he went back to Tanganyika where he was in the Education Service for 15 years or so, latterly in the Education Department at Dar-es-Salaam, the capital. A year or two ago he returned to England again and is now working in the Hertfordshire Education Authority, living at Stevenage.

* * *

K. G. WALKER (1944-50) is Head of the History Department at Sedgely Modern School.

B. WALLER, (1959-66) has spent most of the past year teaching at Fairfield Secondary Modern School, very near to his spiritual home. He is now off to Bonnie Scotland, embarking on a course for B.Ed. at the University of Aberdeen.

* * *

GEOFFREY R. WARD (1955-62), whose younger brother was Captain of the School on 1966-67, is studying for the Higher National Certificate in Business Studies at Constantine College. Since leaving school he has been working in the Purchasing Department of the Teesside Bridge and Engineering Co. Ltd. He is a member of the Tuesday Choir which practices at the school every Tuesday evening, and wonders whether any other Old Boy apart from School Staff visits the school so often.

The only rivals to Geoffrey we can think of in this respect are DEREK HENDERSON, to whose activities we referred in the last Year Book, and several members of Stockton Rugby Football Club regular attenders at the training sessions held at the school throughout the winter—and even in the summer.

* * *

We met TONY WHITTINGHAM in Stockton shortly before Christmas, 1966, and learnt that he was in the second of two years' postgraduate study in Medical Physics at Aberdeen University. He graduated from Imperial College, London, in 1965. During his time at school he was one of the leading lights among Lyke Wake Walkers, and at Aberdeen he has found outlets for his physical energies in the locally popular sports of ski-ing and golf. The Lyke Wake Walk has of course been done on skis, but we have not heard whether any keen golfer has whacked a golf ball all the way from Osmotherley to Ravenscar.

NEWS OF THE (47-52), (47-54) BRIGADE

Without too much preamble we have below news of a dozen or so Old Boys who left either in 1952 or 1954. The response to a request for information was disappointing, but any news for next year's book will be welcome and in time the whole year may be catalogued!

There was one common suggestion in several letters—that Old Boys of this particular vintage make the Annual Dinner a date. Details of this can be found elsewhere in the book.

TONY BARKER took 'A' levels at Constantine Technical College whilst a police cadet, then spent five years in the R.A.P.C., three of these in Kenya. He writes of two "amusing" experiences whilst abroad. The first was being requested to sign a statement that the assistance of guides and porters on Mount Kilimanjaro was refused, and that if he failed to return—he would accept full responsibility.

The second was being marooned in the "Bush" because his vehicle (a three tonner!) was struck by a low flying bird (a vulture!), which then proceeded to wreck the next and only other vehicle in the area.

After all this Tony returned to the U.K. and having said "Good bye" to the Army, became a Civil Servant, taking a qualification in Government Administration. He is, at present, an Executive Officer in the G.P.O. (Telephones) and settled back on Teesside, married with two children Helen (3½) and Philip (1½).

ALLEN DAVIS obtained his H.N.C. at Constantine College and then gained a B.Sc. in Naval Architecture at Kings College, Newcastle in 1959. Whilst serving in the R.A.F., on a short service commission, he obtained a Diploma of the British Institute of Management and upon leaving the service, entered the hectic world of "the managers."

He has since held posts with the Marley Tile Co., Sussex, Neolith Ltd., Newcastle-upon-Tyne, and is at present Assistant Works Director with Horsley Smith and Co. Ltd., Timber Importers and Merchants, Hull.

Allen is married with three children, two girls and a boy. He writes of the years spent at the school together and of the change afterwards, when chance meetings with old form mates became instances of ships passing in the night.

Allen feels strongly that he wasted his chances at school and he and his wife are busily opening children's nurseries with the object of providing an excellent educational start. Looking at his past success one can hardly call it "failure," perhaps just a case of the late developer.

* * *

GRAEME DEWISON—caught as he was about to take up a post as Lecturer in French at the Margaret McMillan College of Education. (Teacher Training). He was previously assistant at Chesterfield, then head of department at Halifax and Thornhill Comprehensive School, Sunderland. This followed an Honours degree at Sheffield and was mixed with a full married life! Graeme married Marion Clark of Grangefield Girls and they now have three children, Michael (5 years) Stephen (2½ years) and Kathryn (6 months). He quotes "they are great fun—most of the time, anyway!"

* * *

JOHN FRANKS entered Head Wrightson as a Cost Clerk and stayed for four years. This was merely "marking time," for those who knew John realised that his vocation lay in other directions. In 1956 he entered Manchester University and undertook Ministerial training at Northern Congregational College gaining his B.A. (Theol) in 1961.

From 1961 to 1963 he was minister at Mexborough and 1964—September, 26th, 1967, he was minister at Highroad Well Congregational Church, Halifax. On 26th September, John moved to Hull as minister of Zion (Cottingham) and Newland (Hull) Congregational Churches.

After leaving College John married Valerie Swift ("Sec." from 1948-53) and they have two children, Julie (4½ years) and Helen (1½ years). He writes that, for three months, his stay at Halifax overlapped Graeme Dewison's!—but he didn't know until Graeme had moved to Sunderland.

He still has an active interest in sport, having finally given up Rugby, he is limited to soccer, soccer refereeing, and cricket playing (with Badminton to keep his weight down!).

* * *

JACK GILLILAND obtained a B.A. (General) at Durham in 1957 then followed it with a B.A. (Hons. in Psychology) and a Diploma in Education.

He taught at Faraday Hall, Billingham Campus School from 1962-64 and was Educational Psychologist to Durham County Council 1964-65, before becoming a Senior Lecturer in Education at the Middlesbrough College of Education.

Having finally decided to leave University, Jack married Marion Thompson (Queen Victoria 1948-53) and they now have two children, David (5 years) and Catherine (3 years).

* * *

DENNIS GRAHAM—His letter from Whitley Bay gave a very brief resume of himself.

“Married, two children—a boy and girl aged four and one respectively, assistant chief estimator at Smith’s Dock, North Shields.” He comes down to Stockton regularly but never seems to meet any former schoolmates. He does give a good quote on replies, which will encourage others with news of themselves. “I just never seemed to have time when I remembered and never remembered when I had time.”—One reply to that : beter late than never!

* * *

GEOF. KENYON—After gaining his Higher National Diploma at Constantine College, Geof. was awarded a King George VI Fellowship enabling him to study for a year or so at the University of North Carolina, U.S.A. On his return, he entered the R.A.F., initially for National Service, and decided to take a permanent commission in the Technical Branch. He is at present a Squadron Leader—Project Officer at the Royal Armament Research and Development Establishment.

He was married in 1960 and has one daughter (5 years). The only Old Boy he has met recently was **BILL PURCHASE** (1948-53).

Geof. closes by pointing out that it’s a long time since he called in at school and he will drop in next time he is in Stockton. (Teaching duties permitting, the staff is always pleased to meet Old Boys).

* * *

BILL WADE obtained his A.C.W.A. and is an accountant with Ashmore, Benson, Pease and Co. Ltd. He married Maxine Greenwood (ex. G.G.S. for girls) and they have a daughter, Karen (15 months). He was in the process of moving house when he wrote and now lives in Eaglescliffe.

* * *

JACK CANDLIN graduated from Sheffield University with a first in Chemistry then obtained a Ph.D.—with a prize for the best Ph.D. thesis. He became a National Research Council of Canada Fellow at the University of British Columbia (1961-62) and then Post Doctorate Fellow at the University of Chicago (1962-64). In the middle of this he married Barbara Brown of Norton (in 1961), and they are now settled in Cheshire with one child—a girl (1½ years).

Jack is now working for I.C.I. at Runcorn and his reason for not writing darlier—he was finishing writing a book on Chemistry—suitable for Post-Graduates!

Jack visits Teesside regularly and last year wandered along to the Boxing Day Rugby Match where he met Allen Davis and Brian Brand.

PAUL HELLIWELL obtained his B.Sc. with Honours in Civil Engineering at Leeds in 1957. He was awarded his Ph.D. in 1960 for research in hydrology on the River Swale and the Whitby Esk. He then went to Australia as Graduate Engineer to the South Australian Government in Adelaide (until November, 1963) and afterwards moved to Hong Kong as Engineer Hydrologist (until November, 1966). Paul is lecturing at Southampton University and claims to be settling down—for a while. He was married in Leeds in 1959 and has three daughters aged five years, three years and one year. He and his wife certainly deserve a rest after their travels—they sailed right round the world, going via Suez and returning via Panama.

* * *

DAVID E. STODDART gained his B.Sc. with first class Honours in Applied Science at Durham University (Kings) and then followed with a Ph.D. (topic not quoted!)

He was a Section Leader and then Development Engineer with Head Wrightson and Co. at Stockton but is now Chief Engineer, Thermodynamics and Special Projects Group, Clarke Chapman and Co. Ltd., and lives at Newcastle. He was married in 1962 "to a University lass" and they have two children, Susan (3½ years) and Peter (1½ years).

* * *

JOHN S. STODDART—Like his brother, John gained first class Honours in Applied Science at Newcastle (Mech. Eng.). He, too worked for Head Wrightson at Thornaby, but as Senior Mechanical Engineer, Research and Development Division. He is now Head of Applied Mechanics and Computation Section at Simon-Carves Chemical Engineering Ltd., Stockport.

He married in 1961 and gives news of himself in another field. He was elected a Member of the House of Laity of the National Assembly of the Church of England for the Diocese of York for five years from November, 1965.

* * *

BRIAN BRAND made a false start at University and failed his qualifying exams! After a year at I.C.I. and National Service in the R.A.F. (as an S.A.C.) he returned to Durham, swapped Maths for Physics, and gained an Honours degree! He has been teaching Physics at Grangefield since 1962.

He married in 1965, and has one child, a boy Richard (9 months). As Old Boys Rugby organiser he still considers himself one of the best Old Boy scrum-halves—Old Boy being the operative word. In spite of a knee injury which kept him out of the game most of last season, he is once more playing for Billingham and entering his 14th season in Senior Rugby.

* * *

Now a quick run through some of the ones who didn't send news but are known!

JOHN ARCHER—still living and working in the area.

DICKY BAMBOROUGH—now moved from Billingham to Fairfield, married with at least one child!

BOB BARWICK—no news.

CLIVE BELL, taught for a while at Grangefield, now Senior Geography Master at Bede Hall, Billingham Campus. He married Jean Brooker (ex. Grangefield Girls).

TOM BELLIS—now teaching at Rosebank, Hartlepool, he lives at Hartburn and is married with a small son.

VIVIAN BROOKES—no news.

IAN CROWDEN—believed to be farming in the Wolviston area.

“DIXIE DEAN”—no news.

DENIS FOULGER—still with the Furness Shipbuilding Company and living at Fairfield.

WALTER HOWELL—no news.

TONY MAUGHAN—no news but believed to be still in the area.

JACK MILNER—gained a B.Sc. and Ph.D. at Durham University. He taught at Darlington, in Scotland and then at Middlesbrough High School before moving to Derbyshire as Senior Physics Master.

ARNOLD ROBSON—no news.

PETER SCOTT—known to be still in the area but no news.

PETER SMITH—last heard of at Rugby.

DEREK STOBBS—no news.

JOHN WALTON—in Canada, we hope for news next year.

DONALD WHITEHEAD—married and living near Newcastle.

ALAN WILKINSON—back in the area and living at Acklam—started playing rugby again last year!

MICK WILKINSON—no news.

IAN WILLIAMS—still in the area but no news.

BRUCE TOWL—believed to be a store manager at Billingham.

“SPUD” STANLEY—no news other than BRIAN CHALLENGOR met him in Singapore or Hong Kong!

There is even less news of the former 5.Sc., PAUL DEE last heard of as a Registrar.

MALCOLM DUNCAN—married and in Canada.

EDWIN HARDWICK—married and living near Carlisle.

ERIC HOLMES—married whilst working in Germany for a few years, now teaching in the area and living at Fairfield.

DON MOSES—believed to be still with I.C.I. and now living at Billingham.

DAVE NASH—last heard of with a permanent commission in the Army.

EDDY PINDER—married and living at Fairfield, still playing cricket and mad at not being picked for the Old Boys this year (due to oversight of selectors, who were newly left from school)!

TOM SHIELDS—back on dry land, married with two or three children, and living at Billingham.

PETER WILLIAMS—back in the area and living at Hartburn.

CHAS. WILLOUGHBY—no news.

BRIAN CHALLENGOR—a C.P.O. (or was it just a P.O.?) in the Royal Navy. He hasn't changed a bit, in appearance. He is married and his wife and family still live in Stockton.

STAFF NOTES)

The Staff in July, 1967, consisted of:—

R. E. Bradshaw (*Headmaster*), J. G. Rattenbury, R. B. Wright, J. J. Durrant, D. J. D'Arcy, T. K. Whitfield, J. Ingham, F. N. Tiesing, R. A. Taylor, K. V. Stedman, H. O. Stout, W. Wilkinson, J. D. Charles, C. Sinclair, J. J. Byrne, H. Horsman, G. C. Birch, P. E. Hudson, B. Nicol, J. J. Davison, R. Kitching, B. P. Brand, R. E. A. Willmer, D. G. Bell, P. A. Sedgewicke, J. R. Walton, A. J. Carter, H. T. Reay, B. K. Bills, Miss V. Covell, J. E. D. Whysall, R. H. Mays, J. Russell. Mr. J. J. Green also returned to us after a year's special course at Carnegie College, Leeds.

* * *

Mr. J. F. Thomas had left us at Christmas 1966 for the R.A.F., in which he achieved the distinction of the award of the Sword of Honour on passing out of his Cadet Course. He was succeeded here by Mr. J. Russell. Mr. Russell is a native of Billingham, and a graduate in Geology of Hull University. After taking his degree at Hull, he went to Loughborough College and took their P.E. course. He came to us to teach P.E. and Games after one term at Bede Hall, Billingham.

* * *

Of the gentlemen listed above, no fewer than five left us at the end of the summer term.

Mr. J. J. Davison came to Grangefield as a boy with the first new form to come to the new school building. After a highly successful school career—culminating in a profitable connection with the Hot Dog Makers—he went to Sheffield University. On graduating from there he returned to Grangefield to the Staff, on which his work has been highly successful both professionally and socially. Now he has gone as Head of the Mathematics Department to Scarborough High School, where we wish him all continuing success and happiness.

* * *

Mr. P. A. Sedgewicke has been with us some six years and has now followed the well worn and broadening path which leads Grangefield History Masters into local Technical Colleges. Mr. R. H. Mays has also moved to a Middlesbrough Technical College (Longlands) to teach Science. Mr. B. K. Bills, another History Master, has trod the path of Messrs. Thornton and Betts, to Canada, and has taken up a teaching appointment in Manitoba. And Mr. J. E. D. Whysall, after two years in the far north, has returned to his native East Anglia, where he is teaching in the Grammar School at Bury St. Edmunds.

All these gentlemen have made interesting and valuable contributions to the life of our school while they have been here. We thank them most sincerely and wish them well in their new "spheres of influence!"

We have been most fortunate in successfully replacing all these departing colleagues. We have already noted the return of Mr. J. J. Green. In place of Mr. Davison we have Mr. J. E. Bainbridge. He is a native of Great Broughton, a graduate of Newcastle University, and before coming to us he has been on the staffs of Hull Grammar School and Stockton-Billingham Technical College. He has a particular interest, so he tells us, in Veteran Tractors; so he is in good company on a staff which includes one member with a great interest in Trams, at least two who are Train experts, and several whose cars are hailed by unenlightened First Formers as Vintage.

Our two new Historians are Messrs. R. K. Bingham and C. D. Wakeling. Mr. Bingham was fortunate enough to be brought up in the Lake District. Thence he went to Nottingham University for his degree and to Cambridge for his Diploma in Education. Since then he has spent two years lecturing at Trinity College in Trinidad. This has given him the opportunity of travel in South America and in Mexico—unusual for an English non-millionaire.

* * *

Mr. Wakeling came from Brighton to Durham University, where he took his degree and Dip. Ed. He is married and lives in Hartlepool, where he has (unsuccessfully so far) stood as a candidate in elections to the municipal Council.

Mr. L. E. Haworth also joined our staff from the Durham University Education Department, though he had previously taken his degree in English at Leeds University. He comes from Lancashire, but we have not yet discovered whether we have in him a raconteur of "Albert" poems to rival our other Staff Lancastrian. He has a particular interest in Advanced Motoring, which he hopes to use for the benefit either of senior boys who may be interested or perhaps of Old Boys who may care to contact him.

* * *

Mrs. Audrey Tremewan came to us as School Secretary when Mrs. Lily Jamieson left. A most efficient secretary she has been, as well as a most agreeable person to have around the place. She left us in the middle of September, 1967, and we bid her farewell with gratitude and regret. In her place we now welcome Miss Lynn Bage, who gives every sign of filling the vacant spot much more than adequately.

Monsieur Francois Suschetet was our French Assistant for 1966-67. The tradition established with our Assistants now is that, unless they are Assistantes, they play for the Staff cricket team against the School. We are pleased to report that Monsieur Suschetet fulfilled this part of his duties as nonchalantly and well as he mastered the new Language Lab and all his other work. In his place we have Mademoiselle Jeannine Viot, who comes from Firminy near Saint Etienne, in Southern Central France.

VISIT TO SCHOOL OF MR. SPEAKER

On the morning of 5th January, 1967, towards the end of the Christmas Holidays, the school was visited by its most distinguished Old Boy, the Rt. Hon. Horace M. King, P.C., M.P., Speaker of the House of Commons.

A fair number of Sixth Form boys gathered in the Library, where Dr. King first addressed us and then answered questions. He spoke first of the great and increasingly rapid changes taking place in the world, and set in contrast to this the centuries-long struggle of Parliament to make Britain the free-est and most democratic country in the world. This has placed Parliament in the paradoxical position of being the great upholder of Tradition, yet at the same time all-powerful to introduce change.

Speaking of his own position as Mr. Speaker, Dr. King told how in the Middle Ages several Speakers had been executed by Kings, long before one King was executed by Parliament. The first "independent" Speaker, Onslow, appeared in the eighteenth century. Then after the early years of George the Third's reign, when the Speakers were "King's Men," the tradition of the independence of Mr. Speaker developed and grew stronger, and is now fundamental to modern Parliamentary life. So Dr. King, after many years of party political activity, is now no longer a "Party Man," and has to maintain order in Parliamentary debates—whether they are dull, lively or furiously angry—with the most scrupulous impartiality.

The audience were most keenly interested and appreciative. This was a morning which will long be remembered by all who were privileged to be there.

SCHOOL NOTES

Though the lower forms in the school are rather less crowded than a few years ago, the number of boys in the school altogether remains above 600, with 139 in the Sixth Form in September, 1967.

In October, 1966, two Fifth-form boys took the Royal Navy Examination for Entry of Artificer Apprentices. The number of boys entering for this exam was 286. Of our two entries, J. G. Ashley came first in the country, and W. A. Dickson came ninth.

We had in 1966-67 an excellent 1st XV, which was beaten only twice, once by one point, once by two! Some very good players are also coming up the school, among the best Brian Winter of the Under 15 XV. He played regularly for the Durham County under 15XV, played in the North of England trial at Manchester, and was picked for the North of England team which played the South West at Nuneaton on 14th January.

* * *

The school is now equipped with a fair number of the "gadgets," electronic and other, which are used nowadays in the teaching of Science, Maths and Languages. In November, 1966 we achieved a Language Lab., which we share with Grangefield Girls School and Stockton C. of E. Grammar School. This is a 32 booth set-up, and many of the boys and even some of the Staff are now expert in the handling of it. The novelty is wearing off and the lab. is becoming a routine aid. There is no doubt that it can prove extremely useful, but we regret to report that it is not a magical device which inoculates you with a language while you sleep.

* * *

To those Old Boys and friends of the School who enquire, as many do, what is to be our future under "Reorganisation," the answer is still hidden in the mists of the future. The present position is that there is a Stockton Plan. But as this plan is bound to be merged after next April in a Teesside Plan we can only wait to see what that will be.

* * *

We do not wish to encourage anyone to be big-headed, but there was a certain form which in the G.C.E. O-Level exams in 1967 chalked up 74 Grade 1 passes. Of 33 boys in the form 29 passed in 8, 9 or 10 subjects each. We have seen worse!

We observe that Grangefielders are slowly but surely finding their way to the New Universities. F. R. Lamplugh will be our first student at York, J. Beall at Colchester, and D. J. Richardson at Guildford.

* * *

The last few years have seen a tremendous development in Careers Guidance of all kinds. We now have three Masters directly concerned with different sections of the Careers 'market' in addition to the Headmaster. It can be confidently asserted that the paper entering the School in connection with 'Careers' far outweighs—whether in kilogrammes or hundred-weight—all the correspondence which entered the School on all subjects a very few years ago.

* * *

We congratulate L. M. O'Neill of our Sixth Form, School Cricket Captain, on his prowess at Hockey. He plays hockey for Norton, and also for Durham County—the senior County team, not a junior team.

SCHOOL LEAVERS; 1966-67:—

This list, complete and accurate as far as we have been informed, shows what those who have left school in the last 12 months are doing now and where. We should welcome further information or corrections.

FROM THE FIFTH FORM:—

C. Ward	Medical Technician.
B. Graystone	Gosport Grammar School.
C. W. Brown	Royal Navy Artificer Apprentice.
M. R. Brown	Stockton and Billingham Technical College.
D. Honeyman	Missionary work.
A. K. Horner	Moving to Scotland.
A. G. Lord	Stockton and Billingham Technical College.
M. J. Marshall	R.A.F. Electrical Apprentice.
G. Reid	Furniture Salesman—Blackett's Hartlepool.
S. P. Robinson	Trainee Surveyor—K. Boal & Partner.
M. Thompson	
C. Wilson	G.P.O. Telecommunications Technician.
D. Wise	Technical Apprentice—Head Wrightson.
W. B. Atkinson	Apprentice Gas Technician, N.G.B.

P. Bamforth	Apprentice Draughtsman, Power-Gas.
R. Blackburn	Apprentice Draughtsman, Ashmore, Benson and Pease.
A. Davies	Apprentice Draughtsman, Ashmore, Benson and Pease.
G. Ferguson	Apprentice Draughtsman, Ashmore, Benson and Pease.
D. N. Gardiner	Apprentice Draughtsman, Ashmore, Benson and Pease.
C. Godfrey	Apprentice Technician, G.P.O.
J. W. Goldie	Assistant Quantity Surveyor, Iddison and Johnston.
D. Hillerby	
P. Johnson	Trainee Chemist, Head Wrightson.
P. A. McGinnis	Hull Technical College.
T. Atkin	Technical Apprentice, South Durham Steel and Iron Co.
K. S. Chester	Process Operator, I.C.I.
T. D. J. Elmes	
A. Fiddes	Crossley's Brick Co.
A. Harle	Apprentice Draughtsman, Ashmore, Benson and Pease.
C. Hart	Apprentice Plumber, Trattles and Rushworth.
P. Horner	Apprentice Draughtsman, Ashmore, Benson and Pease.
G. Marwood	Apprentice Fitter and Turner, I.C.I.
D. McMann	Commercial Apprentice, Crossleys.
J. Preston	Apprentice Draughtsman, South Durham Steel and Iron Co.
C. H. Town	Site Office Assistant, Tarmac.
A. Mawson	Apprentice Draughtsman, South Durham Steel and Iron Co.

OTHER LEAVERS;—

4 A:—

D. Moore	Heap's Spare Parts.
A. Vickers	Apprentice Sheet Metal Work, Wilkinson's Garage.
J. Ashworth	Apprentice Blacksmith, Tinklers.

OLD BOYS RUGBY

Boxing Day—

It seems to be only too traditional now to have frost for Boxing Day—even if there has been no sign of it for weeks.

Ironically, this was the first school match to be cancelled for frost.

Soccer was once more played, the Old Boys hardly having to cheat at all to win 5-1. Star of the match was undoubtedly Tony Greenhalgh with all five goals (and as many misses!). The referee for the first half, Mick Boyes kept a tight grip on the game and the referee for the second half, Andy Rigg almost did the same—giving in finally to pressure from the touch line to end the game just after 12 o'clock. Incidentally it's a good job Andy didn't count the Old Boys' team—Mick Boyes decided to play the second half!

Podge Davies in goal made some daring saves from the energetic school side, apart from the one that got away—hammered in by Hewittson. Mike Sizer turned up and all by himself pushed the average age of the Old Boys' team up by two years. You would never realise that Mike has a World War I pension, the way he was dashing about! Seriously though, it's good to see him turning out, whilst on family visiting. (Second Row—for next Boxing Day, Mike?).

The Teams were:—

Old Boys—

Davies, Sizer, Harrison, Moore, Waller, Young, Turnbull (M), Skilbeck, Henderson and Greenhalgh (twin spear heads—one blunt!), Crossley, Boyes, Rigg.

School—copied from their list and no translation available—

Chisman, Urquart, Goof, Ebbo, Richardson, Moody, Waite, Yogi, Good, Jake (Mick), Gibbons.

Easter—

This game has previously been played in the last week of the Easter Term but this year it was transferred to the first week of the Summer Term. This avoided fielding weakened sides due to school commitments on the one hand and Universities either not down or having Rugby Tours on the other.

In spite of one or two players "crying off" due to injury, the Old Boys' team was quite strong—perhaps due to the Reserve strength of Owen Turnbull, Colin Sinclair, Ian Brown etc!

The game was the best for a long while, the Old Boys being victors by 22-21, their last scores within minutes of "No side."

The School were in front for a long while thanks mainly to the excellent place kicking of Geoffrey Good. He kicked one penalty from all of 55 yards and on the touch line, another from a slightly easier position and three conversions. John Moore for the Old Boys managed one penalty and two conversions, with Owen Turnbull galloping in two fine tries. Ian Fox, Graeme Rayner and John Henderson scored one each.

Perhaps the main feature was the open play of the two sets of three-quarters, only one try coming from a forward—Ray Waite of the School.

After the match the Old Boys were entertained to tea at the school before making their way to Redmarshall for a social evening. This social was a success—no formal arrangements were made but 13 or 14 of the team, reserves and "officials" including Robin Pledger the referee turned up to talk, play cards and dominoes. I gather the Skilbeck household had a dozen or so visitors afterwards to complete the evening (night, morning?). This will certainly be repeated after the next Easter match— all Old Boys welcome—if they can find out where the team are going!

Lastly a word about Old Boys rugby honours. Arthur Chapman was once more a county "ever present"—captaining the side in the absence of Mike Weston in the early matches. Owen Turnbull played in several championship matches, whilst Colin Sinclair played an early season match against South of Scotland. Ian Brown played in the trials for the North Eastern Counties but unfortunately an attack of fibrositis ended his season very early. A new name on the county scene was Phil Trotter—travelling reserve and touch judge!

To bring the report up to date—we had two Old Boys playing at Scarborough to start the new season. Owen Turnbull was in the Festival XV and John Moore at No. 8 for the Northern Counties.

Dates to Note:—

Boxing Day—K.O. at 11 a.m. at the School.

Easter—The first Wednesday of the Summer Term (24th April), K.O. at 2-30 p.m. at the School.

As usual a note to B. P. Brand at the school at least four weeks before the match date will smooth selection.

Rugby—First Fifteen

SENIOR RUGBY, Season 1966-67

The school had yet another very good season losing only one game to Morpeth away by the narrow margin of two points. One notable victory was over Nottingham High Pavement School, in which fast open rugby paid off handsomely.

Good led the team admirably and six members of the team represented the school on the county team, these were Calvert, Etherington, Langthorne, Leitch, Parker and Soulsby. The school also had a brilliant 7-a-side team composed of Langthorne, Parker, Leitch, Calvert, Good, Etherington and Douglas. This team was successful in winning both the Morpeth and Durham County competitions. At Morpeth the school 7 had notable victories over Archbishop Holgate's School, York and Heriots of Edinburgh.

The second XV also had a good season losing only two matches.

Gibbons, M. Thurland, Etherington, Douglas, R. Thurland, Collins, Good (*Capt.*), Calvert, Waite, Soulsby, Langthorne, Chisman, Richardson, Kett, Parker, Leitch, Urquhart and Foulds.

Reserves—

Blackburn, Jackson, Sutherland, Moody, Moule, Thompson and Bland.

UNDER 15 RUGBY

The team was captained by M. Roberts and had quite a successful season, winning eleven games, losing four, and drawing two. However, two of the games were lost whilst the team was weakened by county duties, and one of the drawn games was against a Bertram Ramsey Colts XV. The best result of the season was in an away game against a very strong Dame Allan's side (Newcastle) which Grangefield won 38-3, (10 tries).

The leading try scorer for the season was R. Young with a tally of 13. R. Newton was close behind with 11. M. Roberts, with his kicking scored 53 points (10 tries).

Nine players were sent to the first county trials, and all nine were accepted to the second trials. M. Roberts, B. Winter, R. Newton, J. Forrester and R. Easby subsequently represented Durham County.

One of the team, B. Winter, was chosen to play for the North of England, after playing in the Regional Trials at Nuneaton, attended the England Trials.

Finally, the team would like to thank Mr. Thomas, who has now left us, and Mr. Russell, who took over from him, for the help which they have given us.

* * *

UNDER 14 RUGBY, 1966-67 Season

The team's record was:—

Played	Won	Lost	Points For	Points Against
15	10	5	282	113

P. R. Gardiner was the Captain, and he was also top scorer, with 75 points, Hedley (54) and Cinnamon (34) also scored heavily. A lively team and a happy season!

* * *

1st XI CRICKET

The 1967 season was very much curtailed by bad weather early on in the term and only eight matches were played, five others being cancelled.

The team recorded wins against Great Ayton Friends School, Wellfield G.S., Eston G.S. and the Old Boys.

Against the Staff XI and Guisborough G.S., the school gained honourable draws, only time stopping the school from finishing off the tail-enders.

The "local derby" against Stockton G.S. was lost by 15 runs, M. O'Neill (the season's captain) making 40 of the school's 55 all out. The school's other defeat came at the hands of Hatfield College (Durham) by only 14 runs.

The most successful bowlers were K. Downie (18-131) and N. Campbell (17-119). Several batsmen had their moments, the most consistent scorers were M. O'Neill, R. Ing, M. Kayes, N. Campbell and P. Jackson.

Full Colours were Awarded to M. O'Neill, K. J. Downie, P. Jackson and N. Campbell. Half Colours to R. Ing and D. Campbell.

2nd XI CRICKET

The second team had an extremely short season, only three matches being played: The first Match was against Yarm G.S., and owing to the absence of the Upper Sixth for 'A' level exams, the school just lost (Yarm G.S. 176-2 declared, Grangefield 43 all out).

However, spurred on by their captain, D. Robinson, and in no way deterred by their minor set-back, the team recovered to beat Stainsby G.S. by 7 wickets (Stainsby 60 all out, Grangefield 61-3)!

Unfortunately, the winning streak did not last, and the school went down by 5 wickets to Bede Hall Campus who scored 48-5 in reply to the School's 46 all out.

The mainstays of the team were D. Robinson, D. Campbell, and P. Phillips, of whom it may be said, "They did their best—But."

* * *

U15 CRICKET

The school Under 15 XI had a reasonable season under the captaincy of P. Phillips. A number of matches were cancelled but the season started off well. Grangefield beat Robert Atkinson school in the usual 16 overs, 43 for 6, while the school made 45 for 1. The following match was also a win for the school, who made 59 for 3, Frederick Nattrass making 58 for 9.

But in the following three matches, the school were beaten, Fairfield, Newham Grange and St. Bede's, the latter being lost by one run.

The final match was a little better, Grangefield beating Roseworth 57 for 4 to Roseworths 56 for 8.

During the season a friendly match was played against Eston G.S., which Grangefield won by 4 runs. During the season Moore and Webb bowled well, supported by Webster, (P), and the main batsmen were Fullerton, Brennan and Phillips.

* * *

U14 CRICKET

After losing the first two matches of the season the team settled down to play sound cricket and ended with three successive victories. There were good batting performances from Webster, Harwood, Richards and Armstrong. The bowling was rather thin, but was "carried" in the latter part of the season by Webster (who returned figures of 9 wickets for 7 runs and 8 wickets for 1 run in successive matches), and Harwood. The team was well led in the field by Webster, with Outhwaite an admirable wicket-keeper. Several promising cricketers have emerged in the first year, which augurs well for the future.

* * *

SCHOOL v OLD BOYS

This year, in the annual fixture against the Old Boys, the school gained a rather surprising victory over a side including five local North Yorks, and South Durham League first teamers.

The Old Boys batted first on a wet pitch and made 86-9 declared M. Stayman 30—the only one to get into double figures), For the school, K. Downie took 5-39 and R. Newton 3-29.

Coming out after tea, the school batsmen had a lot of trouble facing the opening attack of Kean and Featherstone, but M. Kayes (23) and P. Jackson (33 including three 6's) and the school ended the match on the third last ball of extra time, the victors by 5 wickets.

Teams—

Old Boys: M. Stayman, J. Sutherland, G. Cossley, N. Kelley, B. Waller, P. Davies, B. Featherstone, J. Davison, C. Simpson, D. Young, G. Kean.

School: M. O'Neill, M. Kayes, P. Philips, P. Jackson, R. Ing, K. Downie, D. Campbell, W. Stewart, R. Newton, K. Reynolds, D. Robinson.

* * *

SCHOOL v STAFF

This year's Staff match finished as a draw with honours satisfied on both sides:

The school batted first and had the staff bowlers on their knees before the first wicket fell at 94 after only 50 minutes. M. Kayes batted superbly making 71 before being brilliantly caught by M. Suschetet, this year's French Assistant, off the bowling of Mr. Charles. The staff then hit a purple patch and the other opener M. O'Neill was run out for 22 with the score still at 94. The match was adjourned at this point to allow the boys to recover from the shock of losing two wickets before lunch.

A tactical discussion during lunch brought P. Jackson to the wicket who proceeded to hit the staff bowlers for three 6's in his 29 not out!

The boys declared after 10 minutes of the afternoon session having added another 35 runs.

The Staff opened impressively in their innings making 34 before Mr. Davison was bowled trying to hit a six into the farm. Mr. Charles replaced him and batted for 65 minutes for 18 runs before retiring to give the school bowlers a chance! The other staff batsmen were not so successful and R. Newton took 4 wickets including that of Mr. (Bradman)-Wilkinson who was given out l.b.w. by Mr. D'Arcy! Mr. Stout came out to admonish Mr. D'Arcy but he was adamant about his decision! The staff batting collapsed now but they managed to hang on till 3-50 p.m. making 86-7.

Once more several good performances were achieved. Outstanding was R. Young's (4R) performance in becoming the first school athlete to win an England Schools title. He achieved this at Peterborough winning the Intermediate Hurdles in 12.1 secs. As he will be in the same age group next year he will have the chance of defending his title.

In the School Sports Tees became the House Champions and winners of the Senior events provided the team who narrowly lost to a strong Queen Elizabeth team.

In the Stockton Schools Championships the junior School team (forms 1-4) was again very successful, winners including A. Makin, S. Smales, P. Gardiner, B. Pearson, B. Hedley, B. Marshall, J. Fawcett, R. Young, M. Roberts, J. Forrester.

Best performances in the County Championships were M. Parker, 1st Senior 880, 1m. 58 secs., R. Young, 1st Intermediate Hurdles, 14.1secs., A. Harrison, 2nd Senior Discus, 121 ft., R. Leitch, 3rd in the Senior Hurdles and Shot, J. Fawcett, 3rd Junior Hurdles, P. Gardiner, 4th Junior 440 yds., 57 secs., and S. Smales, 4th Junior 880 yds., 2m. 17 secs.

In the Triangular against Hartlepool and Wellfield (a Junior form match) which the school won, winners were R. Young, A. Makin, P. Gardiner and S. Smales.

BASKETBALL

First Team Basketball:—

With the age limit being dropped to 17 the school was deprived of several experienced players. After a hard season we had to be content with our customary position of runners-up in the Teesside Junior League, this time to Middlesbrough High School.

In the cup, after an excellent run, the team qualified to play the English Schools Finalists, Middlesbrough High. Once again, however we had to be content with runners up medals losing by 51-32.

COLOURS—

HALF—Thompson, Roberts, R. Thurland.

Under 15 Basketball:—

The season 1966-67 was reasonably successful for the under 15 side. In the league the team was defeated only once by Stephenson Hall at Stephenson. In all other matches the team was supreme and in three matches reached the "ton," Thus we became league champions.

The statistics of the season were:—

played 18—won 17; lost 1.

points for 1,237, against 369.

In the County Cup the team reached the semi-finals, defeating Roseworth, St. Michaels, and arch-rivals Stephenson Hall, before being defeated by a very strong Peterlee G.T.S. side in the semi-final.

Young, Roberts, Winter, Forrester and Newton all represented the school in the South Area Basketball Team.

TENNIS 1967

The season started well with two wins, one against St. Mary's and the other against Middlesbrough H.S. However the team lost to Jarrow G.T. and so went the hopes of retaining the County Cup.

In the Glanville Cup the school got to the area final, but lost to Royal Grammar School, Newcastle.

The captain was P. Ingham, and other regular players for the 1st VI were Phillips, Wilmer, Ethringham, Roberts and Newton.

The second team won four of their five matches. Two second year boys Chesser and Dillworth played in the last two matches; they show great promise for the future!

CROSS COUNTRY

A full programme of fixtures was arranged for this season and out of a total of 18 matches, the school was successful in 12. New names to the fixture list were Durham School and Scarborough High School.

Ten victories out of thirteen were recorded before Christmas, including victories over Acklam Hall G.S., Scarborough, and Newcastle Royal Grammar School. The seemingly traditional bad patch of the Spring term, however, reoccurred this year and only two victories were recorded, with defeats by Darlington G.S. and Durham.

In the North-East Grammar Schools race at Monkwearmouth the school again fared quite well finishing third to Monkwearmouth School and Barnard Castle School. McLean was 9th Parker 13th, Richardson 14th, and Strachan 33rd.

At the County Championships at Elemore Hall, Easington, the only notable achievement was the winning of the senior race in which six school members were included on the Stockton team of eight. McLean was 9th, Richardson 11th, Parker 14th, and Jones 24th.

The season finished on a winning note with victory in a cross country relay race at Acklam Hall G.S.

McLean, Richardson, Parker, Strachan, Jones, Reid, N. Campbell, and Huitson were consistent team members. Much credit however must go to Cossins and C. Webb of the 4th form and K. Latimer of the 5th form who showed great promise for the future while running in the latter few fixtures.

Full colours were re-awarded to M. Richardson (capt.), G. McLean, and M. Parker.

Full colours: J. Strachan and J. Reid.
Half colours: D. Jones and N. Campbell.

SWIMMING

The Summer Term saw a re-birth of the interest in competitive swimming. An age groups team was formed specifically to take part in the Stockton Schools Gala. As preparation a gala was arranged against St. Bede's school (in their pool!). Although we lost we were handicapped by illness to one of the team Raymond Chester and the result rested with the U.15 Freestyle Relay team which was beaten narrowly. We have St. Bedes to thank for the use of their pool for both team trials and a training session before the Town Gala—they were holders of the trophies for best team and U.15 relay which we won this year!

The heats of the Town Gala saw us represented in every final but one—the U.13 breast-stroke and our entry was disqualified by the stroke judge! The finals were very exciting and the whole team swam magnificently. In the individual events (each swimmer was allowed two) Colin Webb demolished the opposition at U.15 in the 100 yards backstroke and the individual medley and Rodney Blackburn repeated the treatment in the same events at U.13. To back these two, we had Raymond Chester and Peter Hood competing a year younger than most in their age groups: Chester winning the U.15 100 yards breaststroke by a touch and coming second in the 100 yards freestyle, and Hood gaining third place in the U.13 50 yards freestyle and 50 yards butterfly events. To crown this we won the U.15 Freestyle Relay—beating St. Bedes into second place and came second in the U.13 Freestyle Relay. There is one amusing story connected with the latter relay. In the heats Grangefield had the fastest time and Richard Hind just managed to qualify for the final—yet Richard Hind beat us by a couple of seconds in the final, with the same team. We found out afterwards that a Richard Hind swimmer nearly lost his trunks in the heats and swam the last part of his leg of the relay using one arm!

We had two swimmers selected to represent the Town at the North-umberland and Durham Schools Gala. Colin Webb in the backstroke and Raymond Chester in the Medley Relay. Colin Webb had the fastest time in the heats and went on to win the final. He will, no doubt, be travelling to Leeds in October for the National Schools Championships as the N and D representative. Sad to relate the Medley Relay team was unplaced!

The School Gala was held on 18th July, at Stockton Baths, for the last time, we hope, in the old pool.

Tees were well to the fore, easily winning the House Championship, with Oxbridge second, Cleveland and Dunelm equal third.

OPEN DAY

Open Day this year was again very popular and successful. Some new features were in evidence. The new Language Laboratory was demonstrated; the school's contingent of Tropical Fish was on show in the entrance lobby; there was a History display; some electric model cars were seen in exciting races. Visitors' cars were washed in aid of the World Wildlife Fund—with only brief intervals for the washers to shelter from the rain! Perhaps the most original and popular event was a spectacular demonstration of Karate by Keith McCormick, a Sixth Former. Careers displays, sporting events, musical programmes, cycling proficiency exhibition, Natural History Society, and Flying Displays by the Aeromodellers combined to offer a varied and entertaining afternoon to many willing victims.

MUSIC NOTES

Music has continued to grow in the school over the past year. The usual events took their inevitable place in the school calendar: Carol Service, Carol Party, Easter Concert and House Competitions. More and more small boys are to be seen bearing musical instruments of all shapes and sizes. Our visiting music staff continues undeterred by the baleful hooting noises which surround them and would terrify all but the dedicated (or deaf)! Mr. E. Bell has ten clarinetists and two oboists: Mr. Pattinson suffers the blare of eight trumpeters and one trombone, while Mr. D. Henderson (an old boy and our latest addition) gently shepherds eight little boys in the suave arts of the flute. All this occurs on Friday night in adjacent rooms so that the casual passerby might feel able to answer the question put by an earnest enquirer, "Sir, why do so many musicians go deaf?"

The School Orchestra

The strings continue to prosper. At the time of writing we have about two dozen violinists; five violas and eight 'cellists, many of whom find their spiritual home in the Biology lab.

We have continued our successful jousts with the Associated Board. During the current year, about 50 boys have taken the various grades. We have also engaged in the theory examinations and it is pleasing to record that about 40 boys have been able to "fool the examiners!"

Our Carol Service was held this year in the Yarm Road Methodist Church where the high standard of former years was maintained. We were again fortunate in having Mr. J. Meffen as our organist who ably held together the choir which was rather scattered along the balconies.

The Carol Party, held at the Girls' School was well attended by an appreciative audience. The Easter concert which was held on two nights was also well attended and the appreciation of the audiences was attested by a fine collection of £37. Both evenings were eventful. No sooner had our 'cello soloist dug "himself in" in the manner of a Livingstone claiming new territories in the name of Her Majesty, than a gust of wind blew his music off the stand. Unperturbed he soldiered on. A helper speedily retrieved and replaced the errant copy to be greeted with the words "It's upside down you silly clot."

The House Competitions went with their usual swing under the gentle but authoritative guidance of Mr. E. Raymond (Music Organiser of Middlesbrough). There were about 200 entries in classes ranging from Musical Composition to Flute. Mr. Raymond professed himself pleased by the standard and we found his adjudications sympathetic and helpful.

So many thanks are due; to the choir who have given of their time; to the boys who are seriously studying musical instruments; to parents who, in despite of the protests of neighbours and their own feeling of malaise, continue to tolerate some rather noisome instruments in their homes, and to the Head who continues to encourage our activities and has not, to date, applied to have his room sound-proofed!

EASTER SCHOOL CONCERT

The third Annual School Concert was held in the school hall on Wednesday and Thursday, March 15th and 16th. It got off to a good start with "The Heavens are Telling," from Haydn's Creation Mass. There then followed fine performances by the orchestra and choir. The full choir performed their pieces well, as did the junior and bass choirs. It was a shame that we were only treated to two pieces of church music by Mr. Reay's Madrigal Group, which was extremely good. The orchestra played some rather difficult pieces, the hardest being Bach's Concerto for Two Violins. This was the highlight of the orchestra's programme and the result was very pleasing. We only had one vocal solo, perhaps one or two more next time? The evening ended with a splendid performance of the "Hallelujah Chorus," by Handel.

Once again we must thank such a fine set of young musicians, and of course Mr. Horsman for making the concert possible.

INTER-HOUSE MUSIC COMPETITION—JUNE, 1967

Following the order of previous years the semi-finals, which this year were held on Tuesday, 27th June, were adjudicated by Mr. Horsman. This was a particularly demanding job considering the exceedingly large number of boys who wished to enter this, probably the most popular of all the inter-house events.

The following day Mr. Raymond, the music Organiser for Middlesbrough came to adjudicate the finals—a far from easy task.

There were 15 classes in all, including House Choirs, although, unfortunately, we were deprived of the pleasure of listening to Cleveland's Choir which had to be withdrawn at the last moment.

Our sincere thanks must go not only to Mr. Horsman and Mr. E. Raymond, but also to Andrew Malkin who persevered with the accompaniment for both the semi-finals and the finals.

The vigorous efforts of the entrants resulted in Oxbridge coming first, with 150 points; Cleveland, Second, with 110 points; Dunelm, Third, with 81 points, and Tees last but not least with 77 points.

The individual winners were as follows:—

JUNIOR VOCAL	G. Neal
SENIOR VOCAL	K. M. Hornby
JUNIOR VIOLIN	D. Kreczak
INTERMEDIATE VIOLIN	D. Lockwell
OPEN VIOLIN	C. Durrant
JUNIOR VIOLA	I. Gardner
OPEN VIOLA	R. Newton
JUNIOR 'CELLO	K. Curtis
OPEN 'CELLO	K. Porter
JUNIOR PIANO	D. Mellor
OPEN PIANO	A. F. Malkin
JUNIOR CLARINET	J. Knott
OPEN CLARINET	P. Mason
FLUTE	B. Horne
TRUMPET	G. Menon
STRING QUARTET	Cleveland
VOCAL GROUP	Oxbridge
CHOIR	Oxbridge

Tuesday Choir:—

Stockton Parish Church was the venue for the first Christmas concert of the choir. Before a fairly numerous audience, we sang "Jesu, Joy and Treasure" of Buxtehude, some modern carols, and "Magnificat" by Pergolesi. We had the excellent accompaniment of the Durham Chamber Ensemble, led by Mr. Derek Downes, which played a Divertimento by Mozart.

Just before Easter the choir was joined by the school Choral Group for a performance of Bach's St. Luke Passion, in St. James, Hardwick.

The accompaniment was skillfully mastered by Peter Tanner (piano) "Old Boy" Derek Henderson, and David Nelson (flutes).

The Summer term was not very fruitful but we are looking towards Christmas with a Mozart Mass and Handel Anthem. Ex-pupils are always very welcome.

* * *

Choral Group:—

A significant and eventful year; singing Evensong in Ripon Cathedral after Easter, and toward the end of the Summer Term, Evensong in Lanercost Priory, following a six-mile tramp along the Roman Wall. It was a little difficult to say which extracted more wind from the singers!

Looking forward, we are singing in Selby Abbey in October, and hope to travel to Amsterdam sometime in 1968 for a lengthy singing visit.

TABLE TENNIS CLUB

The newly-formed Table Tennis Club has had a most successful year, 1966-67, with a membership of 82, beaten only by the Natural History Society and the Choir. This is the first time that table tennis has been included in the House Championships, probably owing to the immense interest in the game which has been aroused in the school.

Not really expecting to do very well, the school entered a team—consisting of D. Gardiner, D. Taylor, N. Campbell and K. Downie—to play in the E.T.T.A. English Schools' Tournament. A reasonable success was recorded in that the team was a very close third to Sunderland and Hull in the northern zone competition. D. Gardiner, D. Taylor and K. Downie represented the Stockton Junior Team (17 years of age and under) regularly throughout the season, with varied success.

The club funds raised by the membership subscription of 1/6d. a year are to be used eventually to buy new tables, as the demand on the two existing ones is enormous.

Many thanks must go to Mr. P. E. Hudson for lending the school gymnasium for the House Tournament, and especially to Mr. D. G. Bell, without whose help the formation and running of the club would have been impossible.

House Tournament Result:—

(1) Oxbridge; (2) Tees; (3) Dunelm; (4) Cleveland.

Secretaries:—

D. Gardiner and D. Taylor.

Master-in-Charge:—

Mr. D. G. Bell.

NATURAL HISTORY SOCIETY

Under the continued leadership and organisation of Mr. D. G. Bell, the Natural History Society again had a very successful year. With 85 members 1966-67, it was again the largest of the school societies. Twenty-three meetings were held throughout the year, and two excursions were made—to Bempton Cliffs, near Flamborough, on 10th July to see the nesting sea-birds, and to Lower Teesdale on 14th July, to see woodland and riverside species.

A new system of prizes was introduced for the first time: instead of these being based on total aggregates of points for various activities, five specific prizes were planned: for Wildlife Conservation, Attendance, Notebook, Special Study, Scrap-Album and Stamp-Album. The Wildlife Conservation prize was won by the Horne and Laverick twins (1Y), who raised £7 for the World Wildlife Fund mainly through their novel activities as a Car-Washing team. (Members of staff supported them by paying 2/6d. a time.). Runner-up was D. N. Kitching (1Y), who raised £3 for the Fund by his own efforts. The Attendance prize was won by B. Coldbeck (3R), who attended every meeting, and the same member also won the Stamp-Album prize for his magnificent collection of ornithological stamps. S. Martin (1Y), won the Scrap-Album prize, but none was awarded for Notebooks or Special Studies: it is hoped there will be more entries in these categories in 1967-68. In addition, a large number of smaller awards were made throughout the year for winners of various competitions. The team knock-out quiz in the autumn term again proved a great attraction, the winners being "The Whimbrels" S.M. Dawson (3A), G. Iceton (3A), and W. Richardson (3 alpha).

Many thanks are due to all those members of the school (not all of them members of the Natural History Society) who collect and bring in Brooke Bond Tea packets in aid of the World Wildlife Fund. So far the school has collected 19,000—a wonderful effort meaning a donation of £19 from Brooke Bond to the Fund. We hope that even more pupils will help in this way in future, and thus enable us to reach our target of 50,000.

* * *

CHESS

The school Chess Teams had a successful season: The senior team having won seven matches, drawn one, and lost one, came equal first in the Teesside Schools' Chess League: The junior team came second in the junior league having won seven matches, drawn two and lost one. The staff match once more ended in victory for the school.

The club wishes to thank Mr. Carter for his continued interest in the club.

* * *

GRANGEFIELD STAMP CLUB

After an extremely successful Autumn term with a membership of over 30, interest seemed to dwindle. It is hoped however that this year members will support the club by regular attendance at all meetings.

Thanks are expressed to the Stockton and District Philatelic Association for their help this year, to Mr. Ingham for his kind donation of booklets and magazines to the club, to Mr. Rattenbury for his assistance in various ways, and to our chairman, Mr. Walton. Also worthy of special commendation are members P. MacDonald and M. Rowntree.

This year our subscriptions to several magazines will be continued and it is proposed that a Public Exhibition be held in the Elmwood Community Centre at Hartburn. This will be quite an ambitious task and will require some hard work both from old and new members but will surely give some real satisfaction to those interested in the "Hobby of Kings."

* * *

GRANGEFIELD AEROMODELLING CLUB

The Club has been functioning for about four years with a nucleus of half a dozen keen modelers. The main interest is in control line flying and on occasions combat flying has been achieved. The Club has given a display each Open Day, and this year was better than usual, the half-hour of flying showing some of the aerobatics possible with control lines.

The Club flying has been restricted this year, our keener members being involved in 'O' level and Sixth form exams.

It met on Friday evenings until the darker nights, and then meetings were closed until the Summer term. One member has successfully flown radio-controlled models and it is hoped to develop this side of the club in the future.

* * *

THE CHRISTIAN UNION

The Christian Union held regular meetings on alternate Fridays. Attendances were small in number, though consistent. Outside speakers continued to address the meetings. To them we are very grateful, as we are to Mr. Carter, who again led a series of bible studies. These meetings were also attended by members of Stockton Grammar School. A film about a Billy Graham Crusade was shown in a joint meeting with the Girls' School.

We look forward to a year of blessing.

* * *

LITERARY AND DEBATING SOCIETY

The Society had mixed fortunes during the year, with poor attendances for economic debates, and a general apathy among the senior school to be main speakers, although some debates were well attended, particularly the humorous debates and the Balloon Debate.

Mr. Atkinson was the Hon. Secretary, and the Committee consisted of Messrs. Little, Hughes, Thurlwell, Collin, and Deehan. During the year Mr. Moody replaced Mr. Atkinson and Messrs. Lynas and Sutherland joined the committee when the two senior members left.

In the Annual Balloon Debate the Archdeacon (admirably depicted by Mr. Horsman) was spared; Mr. Reg. Maudling (Mr. Carter) and a Gnome of Zurich (Mr. Charles) were cast out.

Mr. Thurlwell won the Head Master's Debating Prize, adjudicated by Councillor J. M. Scott, Mayor of Thornaby, to whom the society extends its thanks.

Tees, under the leadership of Mr. Lamplugh, won the House Debating Competition.

During the year Mr. Charles became established as the chairman, and the society is indebted both to him and to Mr. Rattenbury, who helped in the transitionary period, for the skill and enthusiasm they showed.

Motions Debated 1966/67:—

- "This House is not willing to have a go."
- "This House deploras the Governments economic policy."
- "This House denies that Christianity is relevant in modern society."
- "This House would like to see radio freed from state control."
- "This House would enter a United States of Europe."
- "This House supports Mr. Smith's action in Rhodesia."
- "This House believes that the power of the Trade Unions ought to be diminished."
- "This House believes that men are the inferior sex."
- "This House will not take up the teaching profession."
- "This House considers that every artist is worth two of every scientist."
- "This House will take its holidays at home this year."
- "This House believes that measures should be taken to bring about a decrease in the population of Great Britain."

CYCLING PROFICIENCY 1966-67

The Cycling Proficiency Group has had a very successful year. The team of P. Gatenby (Captain), D. P. Cummings, S. P. Dawson, N. J. Hutten, C. J. Beaumont and P. Smith, trained by K. D. Haigh, regained the Littlewood Shield Road Safety Trophy, November, 1966.

The instructors, K. D. Haigh, D. G. Thurlwell, T. R. Cowan, P. Gatenby, A. Harle, D. Cummings, achieved great success gaining 19 R.O.S.P.A. awards, and 13 Knight of the Road awards. Some instructors also helped to train pupils of other Stockton schools in cycling proficiency. K. D. Haigh organised and ran a very successful course for instructors which should greatly benefit the group in the future.

BLANKENBERGHE, EASTER, 1967

The coach left school on the evening of Maundy Thursday with a slight delay, but we pressed on via the A1 to London. The long journey south seemed endless but we eventually arrived.

At 3-20 a.m. in London we saw places noted for fame or infamy. We left London at 6 a.m. stopping for breakfast on the way to Dover.

At 12-30 p.m. the ferry left Dover bound for Ostend, lunch being on board.

Some 3½ hours later we disembarked at Ostend and arrived at "La Brise," Blankenberghe at 5 p.m.

Easter Saturday was a "scorcher" and the day was spent touring the town.

Sunday was wet as we set off for Walcheren, an island in the Scheldt Estuary. We crossed into Holland through the Douane and at Middleburg we viewed a scaled miniature of the island. On the return journey we stopped at Sluis visiting an old windmill there.

The weather on Monday was again overcast but we were eager to depart for Ghent. We saw Van Eyck's masterpiece painted in about 1403, of the "Adoration of the Lamb." Surrounding the picture was the most beautiful cathedral of Saint Baron.

Tuesday was spent touring the town and on Wednesday we visited Brussels, walking round the famous departmental store "Au bon Marche." We also visited the Palais de Justice and on the return journey we saw the "Sand Carpets," copies of masterpieces set in coloured sands, the work of a genius, Pierre Van Ransbeeck.

On Thursday, we prepared for our departure, and on Friday at 10-30 a.m. we left Blankenberghe giving our thanks to the hotel staff.

We arrived back at Stockton on Saturday morning at 3-35 tired, but with some enjoyable memories.

The party would like to thank Mr. Horsman and all others concerned in making our trip to Belgium so interesting and enjoyable.

EXCURSION TO FLORENVILLE, AUGUST, 1967

The Simpleware Society again held its annual convention at Florenville.

Having retrieved M. Whysall from imminent aerial immolation in Trafalgar Square and duly genuflected at Number 10, the party of some 33 neophytes attained Florenville.

Contemplation of eternal truths revealed that potage de jour invariably contained legumes de hier and that the sun still shone though the pound was plummeting.

Such was the probity and rectitude of the society that pedagogy from three neighbouring states paid small sums to watch the lion cubs at play. M. Bugrahl sang songs far far, into the night while a permanent record of the congress lies enshrined in a continuo of clicking camera shutters.

The monastic rule at Orval served as a sobering experience and recalcitrant brethren suffered ordeal by telesiege at Vianden, Coö and Dinant. M. Whysall was smuggled successfully into (and in despite of protest) out of West Germany where large draughts of baroque held him in thrall.

Common Market negotiations were firmly cemented ere the final toxin tolled. M. Bugrahl presented the society with a commemorative scroll and himself kissed M. Horsman (no mean feat).

Soon the Ardennes faded into the glow of memory and the return journey was commonplace, save to Her Majesty's Customs who have probably never before witnessed so complete a declaration of a passenger's contents.

GEOLOGY FIELD COURSE, EASTER, 1967

Instead of a week's residential course we had day trips on April 6th, 7th, and 8th. On the 6th and 7th Mr. Whitfield and his geographers came along with us.

On the 6th we went to the Lake District. On the journey there Mr. Whitfield pointed out items of interest. First we visited a site in Borrowdale, and then continued on to the Carrock mine, in Mosedale. Here we searched around for minerals in the worked out seam, while the geographers climbed to see Bowscale Tarn. On the 7th we journeyed to the Shap area. First we saw the Shap Wells unconformity, and searched for fossils in the stream bed. We then toured two of the Shap Quarries, and by talking to the locals we managed to gather information on how they were run. After the quarries we toured the company's finishing plants, and were given samples. On the 8th the geologists only made a trip to see the Pennine Fault System. Our first step was High Force and the Whin Sill. Then we battled through snow to Alston and down into the Vale of Eden. In the rain we looked for parts of the Pennine Fault System, and after getting soaked we made our way back to Stockton. At the end of the day Mr. Sinclair discovered that Mr. Taylor had dropped off at Darlington suffering from the night before.

The members of both parties wish to thank Messrs. Sinclair and Whitfield for making the trips possible.

WORLD JAMBOREE, 1967

The Twelfth World Jamboree was held from the 1st to the 9th of August at Farragut State Park, Idaho, U.S.A. As a member of U.K. 36, the North East contingent. I flew from London by Boeing 707 to Spokane in Washington State on 31st July. From Spokane we travelled to Farragut where, the following evening, a spectacular ceremony and firework display attended by Lady Baden-Powell marked the opening of the Jamboree.

The Jamboree area was formerly a Naval training base out of which ten large camping areas had been fashioned. Each camping area was named after a previous Jamboree, ours being called Godollo after the Hungarian Jamboree of 1933. There were also two arenas and a large area for displays and exhibitions. The west-side of the site was bordered by the 40 mile long Lake Pend'oreille, and the whole area surrounded by mountains and pine forest.

Lake Pend'oreille was used for swimming, boating and canoeing, and one corner of the lake contained 14,000 trout penned in and ready to catch. Hiking and adventure trails were set out, and a conservation exhibit which included panning for real gold was extremely popular. On three days, a show called "skill-o-rama" was held in the display area, and on each day, a third of the scouts entertained the other two thirds and the visitors with exhibits, cooking and stage performances.

The theme of the Jamboree was "for friendship" and consequently, we spent a lot of time visiting other scout camps or entertaining foreign scouts. A wide game was held in which ten scouts from different countries combined to form the word "friendship," each scout having one letter depending on his subcamp. The game was a huge success, with every scout taking part, and virtually everyone completing it.

On August the 9th, a closing ceremony ended the Jamboree and the following day we travelled to Salt Lake City where we were to stay with American families. The next ten days were spent sight seeing and learning about the American way of life, the Mormon temples and tabernacles being particularly interesting. On 20th August, we left Salt Lake where the temperature was 100 F°, and flew back to London where the freezing cold of an English summer awaited us.

ADVANCED MOTORING

The most common misapprehension about advanced motoring, which the reader is urged to dismiss at the outset, is that it represents a sophisticated form of fast driving, and is the prerogative of a select few. It is an absorbing skill which can be acquired by the so-called family motorist with a degree of application to the task.

Eligibility for tests rests solely on the possession of a current full British driving licence. Far from being an embellished version of the much-criticised M.O.T. test, the Advanced test differs widely in most respects.

This is because the Ministry test serves only to determine whether someone is safe to go out alone without risk to others, and improve his driving. Too often this is a pious hope; the Advanced test is a useful yardstick for measuring the acquired skill, with the police drivers' system of Roadcraft as the criterion.

Thus the test involves no oral examination of theory; it is essentially practical. The examiners, too, are kindly and constructive. Full details of what is, broadly, expected will be found in the inexpensive H.M.S.O. publication, **Roadcraft**. A more recent manual published by the Institute of Advanced Motorists and entitled **Advanced Motoring**, presents largely similar material and a little extra in what it apparently considers a more plausible form.

The test tries to examine driving under built-up, rural and trunk road conditions, and involves a running commentary, which can prove fascinating. Deliberation, consideration and precision are among the qualities sought.

However, if one is interested, by far the most useful approach is to contact a member of the I.A.M. and go out for a demonstration drive. What an eye-opener this exercise can be! Middlesbrough and Newcastle are the nearest centres for test, which costs £3. No profit motive is involved, and this fee may be recovered in a lower insurance premium.

I know many of you are interested. Why not do something about it?

OLD STOCKTONIANS' ASSOCIATION MEMBERS' LISTS

We include this year lists of Life Members and Ordinary Members for the first time since the 1962-63 Year Book.

We endeavour to give for all members: Name and initials, years at school, and address. There are many omissions which are due to lack of information, and there may be errors. In all cases we shall be very grateful to have gaps filled in or errors corrected.

Please write to the Secretary to inform him of any such mistakes, and above all, of any addresses you may know of.

The lists were made up as at 30th September, 1967.

THE MOORLAND THRUSH

I walk across a level moor
of tufted purple heather, and lichen green,
And pause to sit by an old wall,
of cracked grey stone with moss between;
Where, once in youth when time was slow
and summer evenings were long,
A Thrush would sit, and clear his throat
to fill the evening sky with song.

The days have long since passed away
when from the cares of life I could be free
To laugh and sing with whom I pleased,
with all my life in front of me.
And I would give up twenty years
of worldly gain, and wealth would spurn,
If for only one brief day,
I could to those sweet memories return.

Vain hopes, and foolish dreams are these
and never can I hope for them to be.
I turn to rise and go my way,
For shadows of day's ending spread across the heath.
But wait! One shadow moves,
I know I have not stayed too long,
For there, a Thrush clears his throat
and fills the evening sky with song.

ORDINARY LEVELS FROM AN IMPARTIAL EYE

Three months left before the exams,
and I kept promising myself that I would do some work.
Two months to go,
My guilt complex concerning lack of study eats
away my feather stomach.
Weighed myself down, with one month to go,
by an odd here and there.
My friend tells me of his constant prolonged study;
My other companion of his football . . . and I fall.

Here we are in the last two weeks,
 revising, revising.
 And all is not yet lost.
 Nights before exams, up till two and three;
 the gruelling hours, the sweat, the worry, the
 nervousness, stop!
 It is now nine o'clock, start!
 Work, work, work, I know you're tired.
 How fast the months, how slow the hours
 Time is indeed strange, no
 It is the mind of man, a mind that conforms
 with only itself.
 The eye sees only what it wants to see.

Oh how I wanted to escape those hours
 of hellish reality!
 Yet now in the comfort of a seat in the sun,
 how little they mean to me.
 Yes indeed, this pen never wrote a truer thing
 than life is real and so are we,
 so live and conform,
 and only then will you understand your mind.

SIMPLICITY

Be not proud, fellow men, of all
 Your glory and achievement.
 Iceberg tips you seem, but small
 And shallow you are. With life spent,
 Icebergs become water in water,
 Man becomes earth, remembrance shorter.

ANYMIGHT

Hicsum, Hyssop! wearied philosophe,
 digging phloem,
 loving phlebotomy.
 Me, Tadpole and Taper, a demi-god, eh?
 He expires and philtre gives,
 turns cold in schisms,
 disowned by prisms.
 To you, we bring and string our bows,
 Our
 Great
 Ontological
 Deity.

J.D.C.

1. The Jews used Hyssop rods to beat the sacrificial offerings; which here typify philosophical problems.
2. Mr. Tadpole and Mr. Taper were electioneering agents in Disraeli's "Coningsby," and here signify the human weakness in all evangelism.

AUTUMN IN REPOSE

Summer droned into a cloud of mould,
Smoke, and new school caps,
leaving only a trail of memory:
Warm, hazy afternoon sky,
For the wintry sun, first to melt,
And then disperse and dry,
To crackling ramblings through
A dying wood of year's events;
Some red and staring,
Of import, and beautiful in the looking,
Another merely a sound, a snap, in mind's
Rooted "tweentree" chasms.
We wandered, in heated sargasso haze,
Once in, unable to escape, save by
Timeboat till tomorrow Drizzletime
Or antipodal jet.
We slumbered, while early morning
Grew and matured, till round nine
The milkman coined his way,
Rattling, but seeming a part of the green
Scene, when children in school
Felt as the outside shoots,
An urge to move and sway,
Ta-ran-tara, to the orchestra of Life in
Full, summertime Bloom.
Weep now, for we slept through
Violet Midnight hour, still droned, still attended
By silver mooned insects
Swimming through thick sweetness panted by
The day's heat on flower top.
In the Woods on Hilly-Side, stirrings,
Wild grumblings, as Past overflowed.
At Growing time, a thrusting from grey greenity
Against the pinking virgin sky.
Mist came this morning, after the early sun:
A bad sign—this late September air, I think,
Is the seal of envelope on Summer.
Address it, "Past and Pleasant Impression on Present"
And post it to, "The Winter Begun."

Make the
Special Grade
with the Midland

It'll pay you handsomely

If you are a personable young man with a good G.C.E., join the Midland Bank. Holding 'A' levels in certain subjects will entitle you to an immediate year's seniority on the basic salary scale. And you will qualify for "Study leave" to prepare for the Institute of Bankers Examinations. Show that you are able, and you will be put in the Special Grade. This means that your salary could go up by as much as £200 a year; and you would be sure that you were being marked out for a management role in the Bank.

Make a note of this

About 50% of present-day entrants to the Midland Bank will reach managerial rank. *You can do this in your early 30's, earning at least £2,150, rising to £5,000 and more.* By becoming a marked man at the Midland, you can make your mark early.

Find out more about us

We can easily arrange for you to meet the District Staff Superintendent in your area. If you would like us to fix this up write to the Staff Manager at Head Office, Midland Bank Limited, Poultry, London E.C.2.

Have you any plans for the future?

Above are some of the R.A.F.'s

The R.A.F. is also seeking a new generation of officers. Not only the pilots and navigators who will fly the new aircraft, but also the *Ground Branch* officers who make flying possible: the engineers, logistics experts, personnel managers, ground defence specialists, air traffic and fighter controllers and many others. They will all have important work to do. If you are interested, now is the time to do something about it. Ask your Careers Master for some R.A.F. pamphlets—or

get him to arrange for you to meet your R.A.F. Schools Liaison Officer for an informal chat.

Or, if you prefer, write to Group Captain M. A. D'Arcy, R.A.F., Adastral House (25HDI), London, WC1. Please give your date of birth and say what qualifications you have or are studying for (minimum 5 G.C.E. 'O' levels including English language and mathematics), and whether you are more interested in a flying or ground branch career.

OLD STOCKTONIANS' ASSOCIATION

(Founded 24th January, 1913)

An Association of Old Boys of Grangefield Grammar School, Stockton-on-Tees, formerly known as Stockton Secondary School, and originally as Stockton Higher Grade School.

RULES — (Revised November, 1960)

1. The Name of the Association shall be the "OLD STOCKTONIANS." The Old Stocktonians aims at continuing friendships and preserving that spirit of comradeship which ought to exist among those who have been educated at the same school. These aims are to be achieved by means of social, recreative and educational pursuits.
2. The Association shall be open to the Old Boys of the Grangefield Grammar School, formerly known as the Stockton Secondary School for Boys and originally known as the Higher Grade School. Past and present members of the Staff are also eligible.
3. The Officers of the Association shall be:—
 - (a) Three Presidents, who shall be the present Headmaster, the Founder of the Association and an Old Boy.
 - (b) Six Vice-Presidents, one of whom shall be Senior Vice-President.
 - (c) A Treasurer.
 - (d) A Secretary and Assistant Secretary.
 - (e) An Auditor.

These together with twelve elected members shall constitute the Committee of Management.

With the exception of the present Headmaster and the Founder of the Association, all Officers and other members of the committee shall be elected at each Annual General Meeting which shall be held in October or November each year, and the Committee so elected shall be empowered to co-opt additional members.

4. In committee seven shall form a quorum.
5. Members will be encouraged to form sections for specific activities, but must first obtain the approval of the committee of management.
6. The Annual Subscription shall be Four Shillings (4/-) payable on the 1st January each year. For the *first year* only after leaving school the subscription shall be 2/6d.

In lieu of an Annual Subscription a Life Subscription of Forty Shillings (£2-0-0) may be made. (*This may be paid by a maximum of four equal instalments in consecutive years*).

All Life Subscriptions shall be paid into a separate account at the bank, out of which there shall be transferred annually into the General Fund such sums as the committee shall determine, not exceeding 1/6d. in respect of each Life Member.

Any Member who left School fifty years ago, or longer, shall be permitted to retain Membership of the Association for life, without further obligation.

7. The rules of the Association can be altered only at the Annual General Meeting, and then only by a two-thirds majority of those present at the meeting. All motions for any such alteration shall be submitted in writing at least 28 days before the date of the Annual General Meeting.
